20.08" Floating Open Hanging Closet

Included in the package

Part	Description	Qty	Box
01	Base	01	01
02	Top	01	01
03	Lateral	02	01
04	Rear Panel	01	01
05	Hanger Bar	01	01

Hardware

A = 08x

B = 12x

C = 04x

D = 02x

E = 02x

F = 02x

G = 01x

H = 02x

I = 02x

Tools needed (not included)

2x

Connect the part (01) onto the parts (03) with the hardware (A + B).

02**B = 02x**

Observe the correct position of the part (04) before connect onto the part (01) with the hardware (B).

**03****A = 04x****B = 06x**

Connect the part (02) onto the parts (03, 04) with the hardware (B) and the hardware (A).

Connect the hardware (F) onto the part (01) using the hardware (C).

Connect the hardware (I) into the part (05).

Pass the part (05) through the hardware (F) and use the hardware (G) to tight the screw as shown on detail.

06

H = 02x

Observe the indicated height of the Floating Open Hanging Closet using the floor as reference (around of 72").

You will need a pencil to mark where you should drill the wall with a 1 /2" drill bit to put in the hardware (H).

72"

Rear View

Step 01

Fix the parts (12) under the part (01) with the hardware (A).

Step 02

Connect the parts (02) and (03) onto the part (01) with the hardware (C) and the hardware (B).

Step 03

Connect the part (04) onto the parts (02) and (03) using the hardware (C) and the hardware (D + E).
Apply the hardware (L) on the hardware (E).

Step 04

Connect the part (05) and the part (13) joining with the part (14) and the hardware (G).

Step 05

Connect the part (11) onto the part (06) with the hardware (F).

Step 06

Connect the parts (07), (08) and (09) with the hardware (B).
Apply the part (10) in the groove of the parts (07) and (08) until the groove of the part (09).

Step 07

Connect parts (07), (08) and (06) using the hardware (D + E).
Apply hardware (L) on the hardware (E).

Step 08

Use the hardware (I) with the hardware (F) as shown on detail.

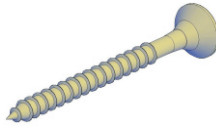

Step 09

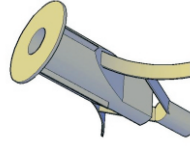

Install the drawer fitting it into the slides fixed on the side of parts (02) and (03).

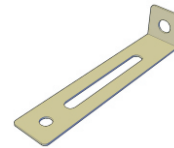

Attention! Tipover System

F = 02x

H = 01x

J = 01x

K = 01x

First, approach as close as possible to the wall

Then, pass the hardware (K) through the hole of the part (13) as shown in the figure above. You will need a pencil to mark where you should drill the wall with a 3/8" drill bit to put in the hardware (J).

**press the hardware wings (J) to put in the hole that you drilled in the wall.*

Hardware (J), plugged in the wall.

Then fasten with the hardware (F) the hardware (K) on the part (04)
