

Van Zyverden's
FREESIA PURPLE RAIN

Freesias are delicate flowers, perfect for cutting. Their sweet scent is particularly fragrant and popular, which is often infused into lotions and perfumes. Freesias are visually stunning, blooming in abundant clusters with up to eight trumpet-shaped, upward-pointing blossoms on leafless stems. Despite popular belief, they are easy to grow.

Fragrant

Excellent cut flower choice

*Good for pots, containers,
or the garden*

About This Variety: Freesias are widely available at retail nurseries and mail-order catalogs in mixed colors. Single color freesias are unique and eye catching. We have identified this color to be special as they make for striking color displays in the garden.

Growing Instructions: Plant about 16 bulbs per square foot. They look best grouped together. Extend the blooming season in a cut garden by planting a few bi-weekly, as they bloom about 10-12 weeks after planting. They can also be grown in pots indoors.

Care Tip: In USDA zones cooler than 9, the corms (or corks) will not survive the winter and should be dug up, should you want to over winter them.

Exposure: Full sun to partial shade

Height: Grows 12-16" tall

Spacing: Plant 4" apart, 2-3" deep

USDA Zones: Hardy in USDA zones 8-11

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
