If you have any questions, please feel free to contact us through the order page.

Important Notice!

This light fixture is not compatible with dimmer switches - using one may cause flickering. Please use a standard wall switch instead. For dimming functionality, please use the included remote control. Thank you!

Warning:

1. Installation should be performed by a professional.
2. To prevent electric shock, please turn off the power before installing, repairing, or cleaning the light fixture.
3. This light fixture operates within a 110V to 265V range only.
4. Do not install the light fixture in damp conditions.
5. Keep the light fixture away from acidic or corrosive materials.
6. The light fixture is not compatible with dimmer switches; please use a standard on/off wall switch or the included remote control.

Specific Steps:

Step 1: Mount the hanging plate to the ceiling.

You need some expansion bolts and screws from the parts kit.

Step 2: Connect the wires from the light fixture to the ceiling .

Connect the black wire to the live wire (L)

Connect the white wire to the neutral wire (N).

Step 3: Install the chassis of the pendant light on the hanging plate .

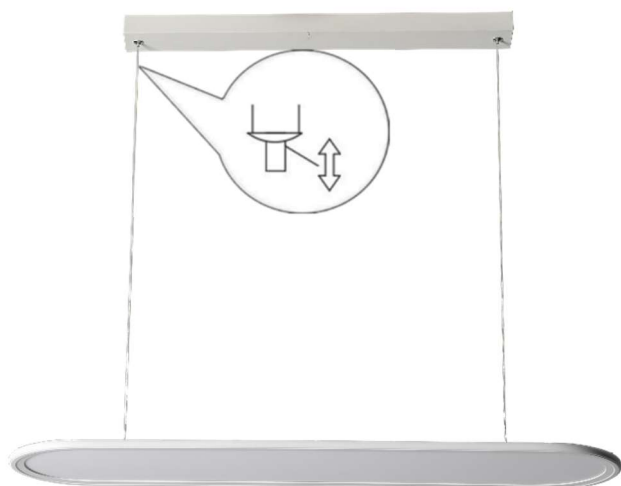

You need to align the holes in the chassis and hanging plate.

Step 4: Use screws and nuts to fix the chassis.

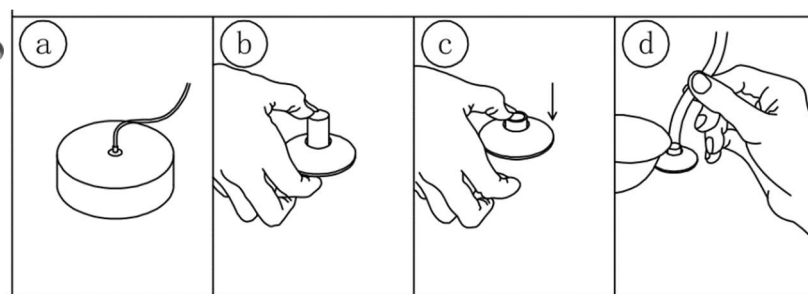

Installation is much easier with 2 people.

【Height adjustment】

Press the button on the chassis to adjust the suspension height of the light fixture as desired.

Wire length adjustment button

Warning!

Using the wall switch, the light fixture can toggle between warm, neutral, and white light. If you keep one color temperature on for more than 10 seconds, the next time you turn on the lamp, it will automatically default to the last color temperature used.
