# **FRIGIDAIRE** GALLERY

# **Microwaves** FGMV176NT D/F/W/B

# **Signature Features**

Effortless<sup>™</sup> Clean Interior Keep your microwave clean by easily wiping away grease, food, or oil from the Effortless™ Clean Interior Surface.

Interior LED Lighting LED interior microwave light stays on while your dish cooks.

**Cooktop LED Lighting** Make meal preparation and cooking simple with LED lighting that offers a clear, bright view of your cooktop.

Smudge-Proof<sup>™</sup> Stainless Steel<sup>1</sup> Resists fingerprints and cleans easily.

# 30" Over-The-Range

## **Product Dimensions**

Height	16-13/32"
Width	29-7/8″
Depth	15-1/32"

## More Easy-To-Use Features

#### Sensor Cooking

Microwave automatically adjusts power levels and cooking times to cook a variety of items, effortlessly.

**Over 30 Options** Versatile settings include: Chicken nuggets and snacks.

## SpaceWise<sup>®</sup> Rack

Our SpaceWise® Rack creates more room so you can cook multiple dishes at once.

#### Effortless<sup>™</sup> Reheat

Reheat almost anything at the touch of a button.

#### **One-Touch Options**

Our microwaves feature easy-to-use onetouch buttons so you can cook baked potatoes, popcorn or even add 30 seconds with the touch of a button.

#### Extra-Large 13-1/2" Diameter Glass Turntable

Big bowls and large casserole dishes are no problem for our extra-large glass turntable. It rotates for even cooking.

#### **Two Speed Ventilation**

Over-the-range microwave doubles as a hood, offering ventilation with two fan speeds.

#### Available in:

<sup>1</sup>Select models only.

Power cord

16<sup>13</sup>/32"

lower

extrusion

location

Locate 120V/60Hz grounded outlet inside upper cabinet

†When installing beneath smooth, flat cabinets, refer to cabinet template for detailed power cord clearance instructions

- \*Can NOT be installed in island or peninsula cabinet arrangements
- \*\* If cabinet depth (including doors) is deeper than 13," unit MUST be spaced out from rear wall using adequate materials (supporting 150 lbs.) to allow proper top vent air exhaust/intake

### **Microwave Specifications**

- Product Shipping Weight (approx.) 62 Lbs.
- Voltage Rating 120V/60 Hz/15 Amps
- Connected Load (kW Rating) @ 120 Volts = 1.6 kW
- (For use on adequately wired 120V, dedicated circuit having 2-wire service with a separate ground wire. Appliance must be grounded for safe operation.)
- Amps @ 120 Volts = 14.2 Amps
- Always consult local and national electric codes.
- Grounded outlet should be located in cabinet above, with hole in base to route power cord. Carefully follow top template instructions for power cord clearance when installing beneath smooth, flat cabinets.
- Microwave's exhaust ventilation system is preset to recirculate air inside with no ducting system required. Exhausting air outside is optional, using either vertical or horizontal ducting system. (Refer to Ducted Option Specifications for outside ventilation.)
- For safe and proper installation, microwave MUST be mounted to BOTH a top cabinet AND a wall, and connected to at least one wall stud. Can NOT be installed in island or peninsula cabinet arrangements.
- Cabinet bottom MUST be level to insure proper installation.
- Cabinet MUST be capable of supporting a total load of 135 lbs.
- When installing beneath smooth, flat cabinets, refer to cabinet template for detailed power cord clearance instructions.
- If cabinet depth (including doors) is deeper than 13", unit MUST be spaced out from rear wall using adequate materials (supporting 150 lbs.) to allow proper top vent air exhaust/intake
- Filler blocks recommended for installation when cabinet front hangs below recessed bottom shelf.
- Minimum distance of 30" required from cooking surface to bottom edge of top cabinet
- Minimum distance of 66" required from floor to top of microwave.

• Opening between cabinets MUST be 30" wide and free of obstructions. For openings up to 36" wide, order optional 36" Filler Panel Kit to fill in gap between unit and cabinets.

297/8"

Allow at least 26" clearance

for door depth when open

Allow 26" minimum clearance for 90° door swing

#### **Ducted Option Specifications**

Blower plate allows for vertical

or horizontal ducting

rear

extrusion

15<sup>1</sup>/32'

- For outside ventilation.
- Exhaust duct adapter will be needed for outside ventilation, to mate with standard 3-1/4" x10" rectangular duct. If round duct required, rectangular-to-round transition adapter will be needed with no less than 6" diameter
- For most efficient airflow exhaust, use a straight run or as few elbows as possible with a maximum duct length of 3-1/4" x10" rectangular or 6" diameter round duct, not to exceed 120 equivalent feet.
- For horizontal installation, be sure to allow enough space between wall studs to accommodate exhaust.
- Refer to installation instructions on web for detailed duct preparation and converting exhaust vent blower system for exterior exhaust ventilation.

# Note: For planning purposes only. Refer to Product Installation Guide on the web at frigidaire.com for detailed instructions.

#### **Optional Accessories**

- 36" Stainless Steel Filler Panel Kit (PN# MWFILKTSS).
- 36" Stainless Steel Filler Panel Kit (PN# MWFILKTBK).
- 36" Stainless Steel Filler Panel Kit (PN# MWFILKTWH).
- 15" Bump-Out Kit (PN# 5304508807).
- Charcoal Filter Included.
