

# ASSEMBLY AND INSTALLATION INSTRUCTIONS

**WARNING:** TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

## Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

## Step-by-Step Installation:

1. Use the locknut on the ceiling plate to adjust the pendant rod to the desired length and secure it in place.
2. Mount the ceiling plate onto the junction box.
3. Connect the incoming and outgoing wires using wire connectors (positive to positive, negative to negative, and ground to ground).
4. Attach the fixture to the ceiling plate with screws.
5. Wrap the glass bead strands around the fixture, spacing each wire loop about 2.5 inches apart. Connect each strand with hardware clips and distribute them evenly. Handle the glass carefully to avoid breakage. If any glass beads are damaged during installation, complete the installation first and replace them with spare strands afterward.
6. Restore power and test the bulbs to ensure they are working properly.

## Safety Instructions:

**To avoid fire, shock, and serious personal injury, follow all instructions carefully.**

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
