Mobile phone APP control instructions:

App Operation

1. APP download: Scan the QR code and select the APP version to download.
2. Pairing: After turning off the power of the fan light, then turn on the power, click the "PairCode" button on the APP within 5 seconds, and hear the beep, then the pairing is successful.
3. After the pairing is complete, you can control the device with the APP.

Note: APP connection method is Bluetooth.

Product assembly and installation

1. Install the 7 fan blades onto the fan blade base in sequence.
2. Remove the screws on the side of the motor, then rotate and remove the hanging plate.
3. Tear off the protective film on the lamp body.

4. Insert one lamp body into the connector of another lamp body and fix it with screws.
5. Align the plastic bracket with the light hub and snap it securely into place.
6. Tighten the screws that secure the light hub to the bracket one by one.

7. Find the wiring terminals of the four LED light strips, insert them into the junction box, and connect the wiring terminals of the motor and the wiring terminals of the controller.
8. The connected terminals are shown in the figure. After the connection is completed, place the junction box on both sides of the edge.
9. Install the fan blades onto the motor, then rotate the fan blade cover counterclockwise and tighten it.

- a: Wooden ceiling
If the roof is a wood ceiling, install the bracket as shown in (fig.1). Make sure the bracket is securely secured.
- b: Concrete ceiling
If the roof is a concrete ceiling, install the bracket as shown in (fig.2). Make sure the bracket is securely secured.

Step 1: Hook one end of the S-shaped fitting to the light fixture and the other end to the bracket. Just like the picture. (fig.3)

Step 2: Wiring (fig.4)

- a. Connect the black live wire marked "L" on the receiver to the live wire (typically black) on the outlet box.
- b. Connect the white neutral wire marked "N" on the receiver to the neutral wire (typically white) on the outlet box.
- c. Connect the ground wire (bare wire) from the base of the ceiling.

Step 3: Remove the S-shaped hook and turn the ceiling fan light clockwise on the hanging plate and clamp it tightly according to the bayonet. (fig.5)

Step 4: Tighten the screw. Ensure secure installation. (fig.6)

Preparations:

1.Prepare the required tools.

2.Turn off the switch.

3.Put all the parts in order.

Star-head Screwdriver	
Wire-stripping Pliers	
Stepladder	
Electrical Tape	

Specifications

Product Name	Ceiling Fan Light	Item Size	24in*5.7in
Input Voltage	110V	LED	30-60W
Dimensions	10*10ft-15*15ft	Valid Remote Distance	20M
Battery Type	AAA*2	Rotating Speed(rpm)	555-956r/min
Reversible	Yes	Fan Timing	1H/2H
