

Portland Stone[™]

Portland Stone gives homeowners the perfectly integrated, natural-looking hardscapes they desire. Its scale is similar to natural flagstone. With its irregular shape and textured surface, Portland Stone creates outdoor spaces that flow harmoniously into the surrounding landscape.

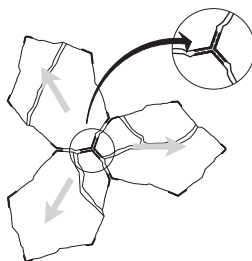

Features & Benefits:

- Ideal to overlay an existing patio or create a new one
- Subtle blend of gray and brown color tones
- Texture, irregular shape, and false joints create the look of natural multi-sized flagstone
- Perfect for patios, walkways and outdoor rooms
- 1-piece system designed to interlock and create the look of a random pattern
- Color, dimension, weight and texture may slightly vary due to natural materials used during manufacturing

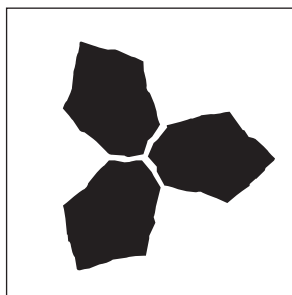

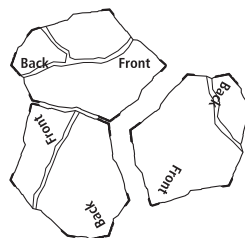

Laying Guide:

Before you start, familiarize yourself with the Portland pavers. Begin by placing 3 pavers together to form a cloverleaf. Be sure to use one each of the three distinct patterns to form your cloverleaf.

A set of 3 pavers forming a cloverleaf.

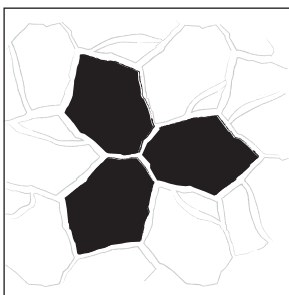

To make the installation easier, the front of the paver should point to the back of the other paver.

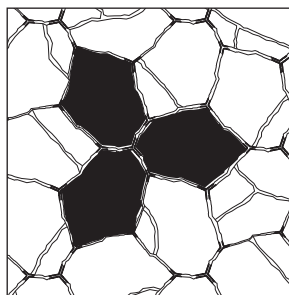

Step 1

Begin by laying 3 pavers at the center of the surface to be covered.

Step 2

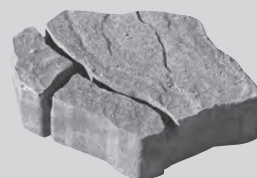

Add more sets of cloverleaves to fill in the surface to be covered.

Step 3

Complete the balance of the surface to be covered with single pavers.

Shapes & Sizes:

15-15.4-IN x 21-IN x 2-IN

NOTE: Portland Stone comes in three distinct patterns. When purchasing, be sure to choose equal amounts of all three patterns so that you will be able to make the cloverleaf pattern work correctly during the installation process.
