This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Front

2PK Solar Zapper Lantern

Technical Specs

Solar Panel

Polycrystalline with output 50mA to 75mA under sunlight conditions

LED for Lantern

8 PCS, SMD 2835, 0.5W/PCS

Lantern runs up to 20 hours continuously when battery is fully charged

LED for Mosquitoes

4PCS, UV wavelength between 365nm and 390nm

Working area: Up to 900 SQF

Grid voltage: 500 volts

Mosquito light runs up to 30 hours when battery is fully charged. When light sensor is enabled, it can run up to 5 days in a row under good sunlight

Rechargeable Battery

3.7V, 2000mAh lithium-ion battery with MSDS

USB C 5V 1A, 3-4 hours fully charged

Water-resistant Level

IPX5

Clean by faucet or garden hose water

Please stay away from the unit if the mosquito light is turned on. Otherwise, you may unintentionally draw mosquitoes to yourself.
