The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

Warning-To reduce the risk of injury, user must read instructions manual carefully.

## **NOTICE Please retain instructions for future needs.**

1. Look out for apparent hazards. When you get to a potential camping location, you should give a quick glance around to see if you spot anything dangerous.
2. Avoid setting up in low areas if there's a chance of rain.it's not recommended that you camp on a day where there's a likelihood of rain in the first place, but just in case, it's a good idea not to set your campsite in a depression in the ground.
3. Find a flat space.Tents need a flat space to be set up properly. This is the ground you'll be sleeping on, so it's necessary you find the flattest possible piece of ground within reason.
4. Clear the chosen area of debris.Once you've found a relatively flat area that's free of apparent hazards, you should prep the campsite by clearing out debris that could hurt the tent or make the surface uneven.
5. Keep ventilation.Tents and prone to internal condensation when the air inside is warmer than outside, avoid this by keeping the tent wall ventilated.
6. Follow packaging method.Take note of the order you unpack the contents of the tent bag and the way the tent is folded. This will help in the repacking.

Product Size	3*3*2.3m
Color	Coffee-colored/Beige

Model	3.6m
Product Size	3.6*3.6*2.3m
Color	Coffee-colored/Beige

# Assembly Instructions

A 2PCS

B 11PCS

C 5 PCS

## STEP1

Spread the screen house on the ground.

## STEP2

Pull the side panel by the metal ring until it is fully open and locked into position.

## STEP4

Once all side panels are fully open, walk inside the Screen house and push upwards from the centre hub of the roof until it is fully open and locked into position.

## STEP3

Repeat this for each of the side panels.

## STEP5

Pre assemble the fibreglass door poles. On both sides of the door insert a fibreglass pole into the bottom and top pockets. Attach with ties to hold in place.

Ensure the Screen house is taut when pegging so it forms the correct shape.
