ASSEMBLY

READ THIS BEFORE YOU BEGIN

- You'll probably need at least **2 adults** and **2 hours** to assemble your soccer goal (of course, that depends on what model you have, and whether or not you're secretly a superhero).
- We've provided a wrench to help with assembly, but you're more than welcome to use your own tools.
- Use gloves to protect your hands from pinch points during assembly. Plus, it's an up-and-coming fashion trend.
- The assembly steps refer to parts by their descriptions and key numbers (see the part list on page 3).
- The assembly steps are written in a specific order, and if you don't follow them exactly... you may end up having to start all over again. We promise we won't say, "I told you so" but really... we told you so.
- Most importantly... **YOU'VE GOT THIS. YOU'RE THE BEST ASSEMBLER AROUND.** This may not be the easiest thing you've ever done... but it will be **worth it**. Trust us.

STEP 5

Starting at the **bottom** of the **net**, **weave** the **assembled tubes** from step 4 in and out of the **larger holes** in the **left side of the net (15)** as shown. When you reach the **top of the net**, insert the **assembled tubes** into the **top corner tube (1)**. **Before connecting** the frame pieces together, be sure to also **weave the net over the corner** of the top corner tube. **Repeat this step on the other side of the net.**
