Instructions d'assemblage du verrou à came

	Schéma A	Insérez le boulon à came dans le trou comme indiqué sur le schéma A.
	Schéma B	Assurez-vous de ne pas insérer le boulon à came : Trop profond, comme indiqué sur la figure B, car cela entraînerait un mauvais alignement du Cam Lock et son incapacité à se verrouiller correctement.
	Schéma C	Évitez également d'insérer le boulon à came trop près de la surface du trou, comme indiqué sur la figure C, car cela rendrait le verrou à came trop lâche et ne s'emboîterait pas correctement.
Connectez les panneaux ensemble.		
SIGNE DE FLÈCHE Insérez le verrou à came de manière à ce que l'ouverture latérale s'ajuste sur la tête du boulon à came.		
Pour serrer le Cam Lock, tournez-le d'un demi-tour dans le sens des aiguilles d'une montre à l'aide d'un tournevis plat. *N'utilisez pas de tournevis automatique car il pourrait se plier ou se casser si trop de puissance
