

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Assemble the top end of tube (I) with metal plate (H) by cap nuts (G), and the bottom end of tube (I) with body (L) by crew (J).
4. Thread the bottom end of metal loop (F) with metal plate (H).
5. Connect the loop (F) with the chain (E) and metal loop (D) together, and then screw the top of metal loop (D) into to canopy (C)
6. Attach the crossbar bracket (B) to the outlet box and secure by using the two screws (A). The side of the crossbar bracket marked "GND" must face outside.
7. Connect the ribbed wire from the fixture to the white wire of the outlet box.
Connect the smooth from the fixture to the black wire of the outlet box. Connect the ground wire from the fixture to the ground wire of the outlet box by using the wire connector provided.
8. Place the canopy (C) over the crossbar (B) secure with ring nut (D).
9. Install proper bulbs (not included) into each socket (K) referring to the markings and/or labels on the fixture for maximum wattage.
10. Restore power to the installation point and retain this sheet for future reference.
