50 PSI Regulator (Micro)

Regulador de 50 psi

This Regulator adjusts your faucet's water pressure down to 50 PSI, and is suggested when running a Micro Sprinkler Irrigation System.

Convierta fácilmente un aspersor o cabezal con boquilla de PVC de ½" (1.3 cm) en un sistema de riego de bajo volumen colocando goteros o micro aspersores a la salida estriada de ¼" (0.6 cm).

- Prevents Micro Sprinklers from blowing out
- Not for continuous pressure/must be installed after Timer

Install by threading
the Regulator onto
any outdoor faucet.
Do not use a wrench
or over tighten.

Intended for use with Micro Sprinklers, this Regulator prevents water pressure from exceeding 50 PSI and helps deliver the ideal amount of water to your plants.

Con este convertidor, puede disminuir significativamente el consumo de agua debido a que los microaspersores, los goteros y las tuberías de goteo en línea riegan su jardín más eficazmente.
