

steps to care

taking care of your desk & console

in case of spills, wipe promptly with lint-free cloth.

avoid exposure to extreme temperatures.

in case of scratches, use furniture touch-up crayons/markers for quick fix and touch-up.

avoid chemicals, polish, oil treatments to prevent damage to the surface.

use slightly damp cloth to spot clean. wipe dry with clean and dry cloth.

do not drag objects across wooden surface to prevent scratches.

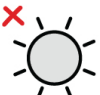

always use coasters for hot/damp containers to prevent heat damage and white rings.

do not place product near wood stoves, radiators, etc.

use felt or leather mat for table lamps etc, to prevent scratches.

do not place product in direct sunlight to prevent against fading.

use protective pad while writing on thin paper.

keep away from sharp objects.

dust-often to prevent dirt build-up.

do not use pressure cleaning machines to prevent damage to structure and finish.
