Issued To: WATER SAFETY CORPORATION

Effective Date: October 2022

File Number: W-13862

Product: Shower Filtration Systems-Aesthetic Effects

Void After: October 2027

This certificate is not evidence of current listing. To verify listing status, visit the IAPMO R&T Product Listing Directory at pld.iapmo.org

Identification:

Each product shall be permanently and legibly marked by means of a plate or label affixed in a readily accessible location (internally or externally) on the system and shall contain at a minimum, the model number, name and address of manufacturer. The model number of replacement components shall also be included, where applicable. The packaging of the replacement component shall be labelled with the model number or name of component, the model number of the system(s) in which the component is used, and the name and address of the manufacturer. Where applicable, other information to be stated is, rated capacity/rated life in liters(gallons), operating or exchange steps, and a statement noting that the system conforms to NSF/ANSI 177 for the reduction of free available chlorine.

Product may also bear the IAPMO R&T shield.

Characteristics:

Showder filtration systems are designed to be used in the reduction of specific substances that may be present in potable water (public or private). The systems are intended to reduce substances affecting the aesthetic quality of the water. To be installed in accordance with the manufacturer's operating and installation instructions.

Products listed on this certificate have been tested by an IAPMO R&T recognized laboratory. This recognition has been granted based upon the laboratory's compliance to the applicable requirements of ISO/IEC 17025.
