

MOUNTING SPACE

NOTES:

- The space between the cabinets must be 38" (96.5 cm) wide and free of obstructions.
- If you are going to vent your microwave oven to the outside, see Hood Exhaust Section for exhaust duct preparation.
- When installing the microwave oven beneath smooth, flat cabinets, be careful to follow the instructions on the top cabinet template for power cord clearance.
- As a guide to installation, see page 25 for Mounting Template Information.
- If the cabinet depth including the cabinet doors is more than 12" then the unit must be spaced out from wall using adequate materials supporting 150 lbs to allow proper top vent air exhaust/intake.
