- STEP 1**
- 1 - Fit part **P7** inside part **P3**
  - 2 - Fit both parts in the frontal side, with **F1**

- 
- STEP 2**
- 1 - Fit part **P2** inside part **P7**
  - 2 - Fit both parts in the frontal side, with **F1**

### STEP 3

- 1 - Fit part **P5** between part **P2** and **P3**
- 2 - Check that all 4 tabs have been fitted
- 3 - Fit part **P5** to parts **P2** and **P3**, at the frontal side, with **F1**

### STEP 4

- 1 - Turn the cabinet with the back side upwards

- 2 - Fit parts **P2** and **P3** to parts **P5** and **P7** with **F1**

## STEP 5

- 1 - Fit part **P10** into parts **P2**, **P3** and **P5**  
Check that all fits are supported over the bolts
- 2 - After fitting the parts, screw the bolts until locked

WARNING

“  
Position part P10  
on the P5 side for  
mounting the  
”

- ## STEP 6
- 1 - Fit part **P9** into parts **P2**, **P3** and **P7**  
Check that all fits are supported over the bolts
  - 2 - After fitting the parts, screw the bolts until locked

## STEP 7

1 - To assembly the cabinet with shoe fit the accessory **F9** in part **P7** as illustrated here below and turn to screw. To level the height or the cabinet, turn the shoe either clockwise or counterclockwise to align it.

\* Only in cabinets without caster

2 - To assembly the cabinet with caster, align the **F10** and **F11** to the holes in part **P7** and fix them with **F3**

3 - **WARNING:** Casters with lock (**F11**) must be fitted in the frontal side of the cabinet

\* Only in cabinets with caster

## STEP 8

1- Turn the cupboard so that it will stand in the position of use  
2- Fix **F7** to parts **P2** and **P3**, as shown here below

## STEP 9

- 1 - Fit the lower part **P19** in diagonal position to insert it inside the cupboard
- 2 - Lean part **P19** in part **P2**, **P3** and place it over the **F7** detailed in the figure here below
- 3 - Lower the other side of part **P19**, leaning it over the left **F7**

## STEP 10

- 1 - To assembly the doors, fit door **P23** lower hinge bolt inside the bushing fixed in part **P7**. Then, pull down the pin of door **P23** upper hinge; align the door and release the pin to fit the bushing fixed in part **P5**
- 2 - Repeat the step for part **P22**
- 3 - Insert product log

  - 2 - Fit both parts in the frontal side, with **F1**

- 
- STEP 2**
- 1 - Fit part **P2** inside part **P7**
  - 2 - Fit both parts in the frontal side, with **F1**

### STEP 3

- 1 - Fit part **P5** between part **P2** and **P3**
- 2 - Check that all 4 tabs have been fitted
- 3 - Fit part **P5** to parts **P2** and **P3**, at the frontal side, with **F1**

### STEP 4

- 1 - Turn the cabinet with the back side upwards

- 2 - Fit parts **P2** and **P3** to parts **P5** and **P7** with **F1**

## STEP 5

- 1 - Fit part **P10** into parts **P2**, **P3** and **P5**  
Check that all fits are supported over the bolts
- 2 - After fitting the parts, screw the bolts until locked

WARNING

“  
Position part P10  
on the P5 side for  
mounting the  
cabinet.”

- ## STEP 6
- 1 - Fit part **P9** into parts **P2**, **P3** and **P7**  
Check that all fits are supported over the bolts
  - 2 - After fitting the parts, screw the bolts until locked

## STEP 7

1 - To assembly the cabinet with shoe fit the accessory **F9** in part **P7** as illustrated here below and turn to screw. To level the height or the cabinet, turn the shoe either clockwise or counterclockwise to align it.

\* Only in cabinets without caster

2 - To assembly the cabinet with caster, align the **F10** and **F11** to the holes in part **P7** and fix them with **F3**

3 - **WARNING:** Casters with lock (**F11**) must be fitted in the frontal side of the cabinet

\* Only in cabinets with caster

## STEP 8

1- Turn the cupboard so that it will stand in the position of use  
2- Fix **F7** to parts **P2** and **P3**, as shown here below

## STEP 9

- 1 - Fit the lower part **P19** in diagonal position to insert it inside the cupboard
- 2 - Lean part **P19** in part **P2**, **P3** and place it over the **F7** detailed in the figure here below
- 3 - Lower the other side of part **P19**, leaning it over the left **F7**

## STEP 10

- 1 - Insert part **P17** inside the cabinet, in diagonal position.  
Fit part **P17** in cut-offs of parts **P2** and **P3**, as detailed here below
- 3 - Fix part **P17** in parts **P2** and **P3**, with **F1**

- STEP 11**
- 1 - To assembly the doors, fit door **P26** lower hinge bolt inside the bushing fixed in part **P7**
  - 2 - Then, pull down the pin of door **P26** upper hinge; align the door and release the pin to fit the bushing fixed in part **P17**
  - 3 - Repeat the step for part **P27**

**STEP 12**

- 1 - Fit part **P15** to part **P28**
- 2 - Fit them with **F1**

- STEP 13**
- 1 - Align parts **P12** and **P13** to part **P15**, until it leans against part **P28**
  - 2 - Fit them with **F1**

**STEP 14**

- 1 - Insert part **P14** over part **P15** and between parts **P12** and **P13**
- 2 - Then, fix part **P14** to parts **P12**, **P13** and **P15**, with **F1**

## STEP 14

- 1 - Fit the drawers – already assembled – between parts **P2** and **P3**, through the slidings
- 2 - Check that slidings of both sides are properly fitted. Move the drawer, opening and closing it, testing

---

## STEP 15

- 1 -Insert product log
