SECTION 4: First aid measures

4.1 Description of first aid measures

General advice

Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

If inhaled

Move victim to fresh air. If victim is unconscious, administer artificial respiration and get medical attention.

In case of skin contact

Take off contaminated clothing and shoes immediatley. Wash exposed areas with soap and water.

In case of eye contact

Flush eyes with water for a minimum of fifteen minutes. If irritation persists, get medical attention immediately.

If swallowed

Do NOT induce vomiting. May be harmful if ingested. Observe victim for nausea; seek medical attenti on in conditions persist.

4.2 Most important symptoms and effects, both acute and delayed.

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 1.1

4.3 Indication of any immediate medical attention and special treatment needed. No data available

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

Use water based product, boiling point 212°F

5.2 Special hazards arising from the substance or mixture

This product is not for injection into humans. This product contains Methylpolysiloxanes which generate formaldehyde at approximately 300°F (150°C) and above, in atmospheres which contain oxygen. Formaldehyde is a skin and respiratory sensitizer, eye and throat irritant, acute toxicant and potential carcinogen.

5.3 Advice for firefighters

- Wear self-contained breathing apparatus for firefighting if necessary
- 5.4 Further information
 - None known.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

For large spills, flush the spill with water spray. Wear recommended protective equipment.

6.2 Environmental precautions

Prevent runoff from contacting public drains, sewers, or streams.

6.3 Methods and materials for containment and cleaning up

Soak up spills with absorbent, noncombustible material and place it in labeled containers for disposal.

6.4 Reference to other sections

For disposal see section 13

SECTION 7: Handling and storage

7.1 Precautions for safe hadling Avoid contact with skin and eyes. For precautions see section 2.2.

7.2 Conditions for safe storage, including any incompatibilities

Store in a cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Moisture sensitive. Storage class (TRGS 510):

Storage class (11(d) 5

7.3 Specific end use(s)

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Components with workplace control parameters

Contains no substances with occupational exposure limit values.

8.2 Exposure controls

Appropriate engineering controls

Personal protective equipment

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

Eye/face protections

Tightly fitting safety goggles. Faceshield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.

Full contact Material : Nitrile rubber Minimum layer thickness: 0.11 mm Break through time: 480 min Material tested:Dermatril® (KCL 740 / Aldrich Z677272, Size M)

Splash contact Material : Nitrile rubber Minimum layer thickness: 0.11 mm Break through time: 480 min Material tested:Dermatril® (KCL 740 / Aldrich Z677272, Size M)

data source: KCL GmbH, D-36124 Eichenzell, phone +49 (0)6659 87300, e-mail sales@kcl.de, test method: EN374 If used in solution, or mixed with other substances, and under conditions which differ from EN 374, contact the supplier of the CE approved gloves. This recommendation is advisory only and must be evaluated by an industrial hygienist and safety officer familiar with the specific situation of anticipated use by our customers. It should not be construed as offering an approval for any specific use scenario.

Body protection

Complete suit protecting against chemicals, The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Control of environmental exposure

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

SECTION 9: Physical and chemical properties

| 9.1 | Information on basic physical and chemical properties | | | | | | |
|-----|---|--|-----------------------------|--|--|--|--|
| а - | | Appearance | Form: liquid | | | | |
| | | | Color: translucent to white | | | | |
| | b - | Odor | Mild (amine) | | | | |
| | C - | Odor threshold | No data available | | | | |
| | d - | рН | 4.5 - 6.0 | | | | |
| | e - | Melting point / freezing | 32°F / 0°C | | | | |
| | | point | | | | | |
| | f - | Initial boiling point and | 212°F / 100°C | | | | |
| | | boiling range | | | | | |
| | g - | Flash point | None | | | | |
| | h - | Evaporation rate | <1 (butyl acetone =1) | | | | |
| | I - | Flammability (solid, gas) | > 200°F | | | | |
| | j - | Upper/lower flammability | No data available | | | | |
| | | or explosive limits | | | | | |
| | k - | Vapor pressure | No data available | | | | |
| | - | Vapor density | No data available | | | | |
| | m - | Relative density | No data available | | | | |
| | n - | Water solubility (@ 20°C) | Soluble | | | | |
| | 0 - | Solubility in organic solvent (state solvent) | Soluble in alcohols | | | | |
| | р - | Partition coefficient : n- | No data available | | | | |
| | | octanol/water | | | | | |
| | q - | Auto-ignition temperature | No data available | | | | |
| | r - | Decomposition temperature | No data available | | | | |
| | S - | Viscosity | 20 CPS | | | | |
| | t - | Explosive properties | No data available | | | | |
| | u - | Oxidizing properties | No data available | | | | |
| | V - | Specific Gravity ($H_2O = 1$) | 1.01 (@ 25°C) | | | | |
| | w - | Silicone solids % | 35% | | | | |
| 9.2 | Other safety information | | | | | | |
| | No data a | vailable | | | | | |

SECTION 10: Stability and reactivity

| 10.1 | Reactivity |
|------|--|
| | No data available |
| 10.2 | Chemical stability |
| | Stable under recommended storage conditions. |
| 10.3 | Possibility of hazardous reactions |
| | Will not occur |
| 10.4 | Conditions to avoid |
| | No data available |

10.5 Incompatible materials

Strong oxidizing agents, Acids

10.6 Hazardous decomposition products

Other decomposition products - carbon monoxide, carbon dioxide, formaldehyde In the event of fire: see section 5

SECTION 11: Toxicological information

11.1 Information on toxicological effects Acute toxicity None found Skin corrosion/irritation None found Serious eye damage/eye irritation None found Respiratory or skin sensitisation No data available Germ cell mutagenicity No data available Carcinogenicity IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. **Reproductive toxicity** No data available Specific target organ toxicity - single exposure No data available Specific target organ toxicity - repeated exposure No data available Aspiration hazard The use of respiratory equipment is manditory for all spray applications Additional Information No data available **SECTION 12: Ecological information**

12.1 Toxicity

- No data available
- 12.2 Persistence and degradability
- No data available 12.3 Bioaccumulative potential
- No data available
- **12.4** Mobility in soil No data available
- 12.5 Results of PBT and vPvB assessment No data available
- 12.6 Other adverse effect No data available

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product

The product is not considered a hazardous waste under Federal Hazardous Waste Regulation 21CFR 261. Please be advised, however, that state and local requirements for waste disposal may be more restrictive or otherwise different from federal regulations. Consult your state and local disposal agencies regarding regulations pertaining to the proper disposal of this material. It is recommended that the absorbed waste product be land filled after securing Environmental Regulatory Agency and landfill operations approval. Regulations may also apply to empty containers, liners, or rinsate.

Contaminated packaging

Dispose of as unused product.

SECTION 14: Transport information

- 14.1 This product is not a DOT hazardous material and is therefore not regulated.
- **14.2** Special precautions for user
 - No data available

SECTION 15: Regulatory information

- 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture No data available
 15.2 Chemical Safety Assessment
 - For this product a chemical safety assessment was not carried out

SECTION 16: Other information

Full text of H-Statements referred to under sections 2 and 3.

- H303 May be harmful if swallowed.
- H316 Causes mild skin irritation.
- H320 Causes eye irritation.
- H335 May cause respiratory irritation.

TO THE CUSTOMERS OF ECO ADVANCEMENTS, INC.

All statements, technical information and recommendations contained herein are based on tests we believe to be reliable, but the accuracy or completeness thereof is not guaranteed, and the following is made in lieu of all warranties, express or implied:

Seller's and manufacturer's only obligation shall be to replace such quantity of the product proved to be defective. Neither seller nor manufacturer shall be liable for any injury, loss of damage, direct, or consequential arising out of the use of or the inability to use the product. Before using, user shall determine the suitability of the product for his intended use. The user assumes all risk and liability whatsoever in connection therewith.

No statement or recommendation contained herein shall have any force or effect unless in an agreement signed by officers of seller and manufacturer. Since the manufacturer of the product described in this technical data sheet has no means of controlling the final use of the product by the consumer for the user, it is the responsibility of the immediate purchaser and any intermediate seller or sellers to inform the user of the purposes for which the product may be fit and suitable and of the properties of the product, including the precautionary measures which must be taken in order to ensure the safety of the user and of other third persons and property.

No statement made herein shall be taken as an authorization or inducement to practice any patented invention without appropriate license.
