

INSTALLATION INSTRUCTION

Appearance :

The diagram illustrates the installation of your new luminary. This is a representative drawing and is not intended to match the style of your luminary.

Instruction Sheet :

1. Open the outer packaging box, find all the components, and carefully place them on a clean platform to avoid scratches and collisions with the lamp body.
2. Locate the lamp body and ensure that it is connected according to the diagram. The wires in the junction box should not be exposed and should not be squeezed.
3. Assemble the ceiling cover according to the diagram on the right. **Step 1** must be tightened to ensure a secure fit; otherwise, there is a risk of it falling off.
4. Install the Middle Rod, pendant chain and lampshade as per the diagram, and select the appropriate light source.
5. When connecting the power cord, be sure to turn off the power first, and then connect it according to the correct polarity.
6. Inspect the assembled lamp to ensure that the lamp body is balanced and stable. Turn on the power switch and confirm that the lamp is operating normally.
