

CHAMBERLAIN

POWERED BY myQ

Wall Mount Garage Opener with Battery Backup

MODEL RJO101

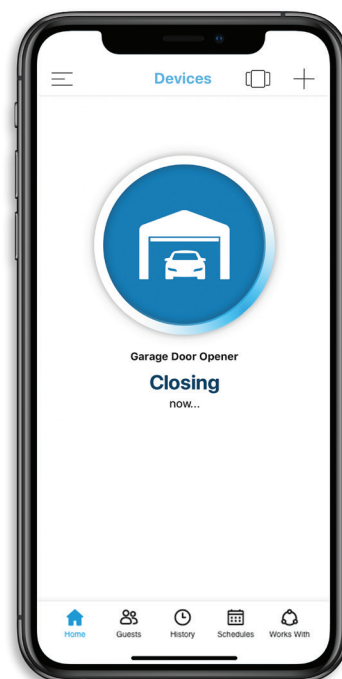

WITH BATTERY BACKUP

AUTOMATIC DOOR LOCK

For the Smartest Garage

The Chamberlain RJO101 garage door opener is the top of the line garage door opener. Redesign your garage into a multifunctional extension of your home. This model features a space saving, ultra-quiet, high performance design with a powerful battery backup that will ensure you never get locked out of your garage again. Brilliant 1500 lumen lighting gives you visibility and shows off your garage like never before. The Automatic Garage Door Lock deadbolts the garage door every time it closes, for complete security. Easy Installation with the removal of the cable tension monitor.

Never wonder if you left your garage door open again.
