TRYM

NOSE TRIMMER

USER MANUAL

Model: PETRYMNOS

Introduction

Thank you for purchasing the TRYM nose hair trimmer. This sleek, state-of-the-art groomer is a safe and effective way to remove unwanted hair from your nose, ears, and eyebrows.

Installing Batteries

This device is powered by 2 AAA batteries (not included). To install:

- Press and slide the battery case cover to the right to open. (See Fig. 1)
- Insert batteries according to the (+) (-) guides printed on the device (See Fig. 2).
- Replace the battery case cover and slide to the left to close. (See Fig. 3)

Built-in LED Grooming Light

The TRYM nose hair trimmer features a bright LED grooming light to assist with precision and accuracy while trimming.

Trimming Nose Hair (Figure A)

Turn trimmer on and gently insert into nostril—do not insert more than 1 cm. Use smooth circular movements to remove hairs.

Trimming Ear Hair (Figure B)

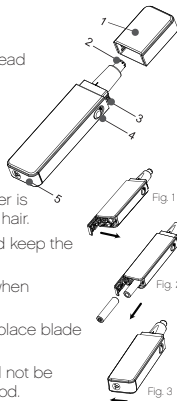

Turn trimmer on and gently insert into the outer ear—do not insert further than 1 cm to avoid damage to the eardrum. Carefully run trimmer along all parts with unwanted hair.

Trimming Eyebrows (Figure C)

Turn trimmer on and run slowly over hairs that need trimming. Hair length is determined by the distance between the cutting head and the skin.

Product Features

- 1 Blade guard cap
- 2 High-grade steel cutting head
- 3 LED Grooming Light
- 4 On/Off switch
- 5 Battery case cover

Safety Information

- The TRYM nose hair trimmer is only intended for trimming hair.
- Do not use on children and keep the device out of their reach.
- Do not leave unattended when switched on.
- Switch off after use and replace blade guard cap.
- Remove batteries if you will not be using for an extended period.
- Do not rinse or submerge in water.
