

## 4IN RECESSED

Ceiling joists, or in suspended ceilings Mounted • Damp Location Listed

### Description:

4" Non-IC Remodel Recessed Housing

### Specifications:

- The housing and frame are constructed from die-formed corrosion resistant galvanized steel
- Its gasketed air-tight lamp housing prevents conditioned air from escaping into the attic space, reducing unnecessary HVAC energy usage, and the lamp housing compartment can be adjusted to fit ceiling thicknesses from ½ in. to 1 ¼ in.
- Features a universal J-box with snap-out sides and provided with push in connectors to make wiring quick and easy.
- Simple installation mounting springs press and lock into place, making installation quick and efficient. Hanger bars include t-bar mounting clamps for use in suspended t-grid ceilings.
- The integrated temperature sensor prevents lamp overheating, allowing this fixture to be used with a range of lamp shapes and wattages
- Housing is provided with a medium base socket for a variety of bulbs - which are based on the trim used.
- The housing is compatible with a variety of trims and finishes to create different lighting effects or to easily match any decor
- CULus damp location rating makes this housing ideal for use in damp locations and Non-IC installations
- Fully dimmable with dimmable bulbs

### Performance:

Input Power	50 W
Input Voltage	120 VAC
Warranty	1-year Limited Warranty
Labels	cULus Damp Location Listed
