

BORA Workhorse XT™

Quick setup is faster than conventional sawhorses

Use the 2x material supports to create a temporary worktable

Predrilled top allows 2x material to be screwed in as sacrificial top

Quick 4-inch height adjustment to accommodate uneven terrain

The BORA Workhorse XT is a durable sawhorse with a pro-level weight capacity and stable construction. Retractable legs and exclusive 4-inch leg height adjustment make it an adaptable heavy-duty option for every job site. For easy use and extra working height. Its steel construction is durable and built to last, making the BORA Workhorse the perfect choice for every jobsite.
