LIMITED WARRANTY INFORMATION

Thank you for choosing an Alpine product! We aim to please with our wide range of products including Fountains, Birdbaths, Statuary, Pond Supplies & More. All of our products are constructed from the highest quality materials. In the event that we have not achieved our usual standard of excellence, we will repair or replace, at our discretion, within the warranty period. A valid proof of purchase, with the purchase date clearly indicated, must be provided. Photos of defective merchandise will also be required to help distinguish the actual cause of the defect. Please read below for a detailed description of warranty coverage.

- **Water Damage**
  Alpine products are not manufactured to withstand extreme temperatures. Improper storage that allows water to freeze within a product may cause damage, is considered negligence, and will not be covered under this warranty. The use of "hard water," and/or caustic cleaners, can affect the painted or other finishes. Failure to keep the unit clean, and use of such additives/cleaners, will also void the warranty. Please note: for fountains, it is normal for some splashing to occur and protecting the immediate surfaces is not the responsibility of Alpine Corporation.

- **Paint & Color (Retention and/or Loss)**
  The use of water will cause natural erosion to the color. This area can be touched up using standard paint. The paint is designed to protect the entire finish against breakdown of color. As with any product, all finishes with time will gradually fade and discolor. The warranty will only cover against severe or complete fading, within the first year from date of purchase, with the above exclusion.

- **Procedure/Service**
  Should a warranty/claim be needed, you should contact the retailer from whom you purchased the product. If that is not an option, you can contact Alpine Corporation at www.alpine4u.com. When contacting Alpine Corporation, you must be prepared to show proof of purchase, provide photographs and any other information needed to validate your claim. This may be necessary to distinguish between a partial or complete replacement of a defective product. The warranty does not cover any items with multiple parts; the warranty will ONLY cover the individual component of the unit/item that may be defective. Replacement parts can be made available to a consumer through the original selling party, or an approved parts retailer. If this is not an option, contact our customer service department. ***Item is covered under one year limited warranty from the date of purchase. If your purchase was after our 30-day grace period, payment information will be requested for shipping charges***.

- **Not Covered Under Warranty**
  The limited warranty will NOT cover cases of damages due to:

  1. Inadequate care and/or neglect
  2. Environmental and/or natural elements
  3. Immersion in water, unless specified
  4. Improper Installation/Storage and/or Maintenance

This warranty is void if the product has been damaged by accident, misuse, negligence, improper installation and/or modifications have occurred. This includes any and/or all defects arising out of freezing water damage, hard water damage, failure to keep the unit clean and free of harmful additives such as bleach, chlorine, etc…. which affects the paint and/or parts. This warranty also does not cover any additional charges or installation, removal, disposal and/or shipping costs or consequential damage associated with any warranty claim.

ASSEMBLING & USING YOUR PRODUCT

Unpack all components carefully. Check the packaging to ensure all of the parts have been removed.

1. Place the Fountain on a smooth and level surface. Allow enough space to access the pump during installation.

2. Gently pull the vinyl tubing connection and the single light cord through the back opening of the fountain. Connect the tubing to the water pump. Plug the light cord into the Pump wiring harness and twist clockwise to tighten. Place the Pump into the fountain with the rubber feet facing down

3. Gently pour water into the Fountain basin, being careful not to overflow and cause splashing. Make sure the water completely submerges the pump and the water runs clear during operation.

Note: *We recommend that you use distilled water to prevent scale build-up. It can take up to 5 minutes for the air to be completely expelled and water begins to flow the first time you operate the pump.*

4. Through the back Fountain opening, pull out the cord from the Pump and light wiring harness and connect it to the Transformer.

5. Plug the Transformer into a local power supply and push the ON/OFF button to turn the fountain on.

   IMPORTANT: Make sure no water is near the plug and always keep the power source in a dry place.

6. Congratulations, your tabletop fountain is now complete. Don't forget to add water regularly as water will evaporate over time.

Relax and enjoy your new fountain.

REPLACEMENT PARTS

For parts or additional help with your new product, please contact Alpine customer service.

ALSO AVAILABLE FROM ALPINE

- Fountain Care Formula…….....PPL102
  Foam and scale remover for indoor and outdoor fountains.
- Americana® UV Acrylic Sealer ...……RRR106
  Provides protective clear coating for all painted surfaces.
- Touch Up Paint Kit.....……....RTD102
  Includes primer, thinner, 7 paint colors, applicator and sealer.

CAUTION ⚠

1. Do not exceed the maximum voltage and wattage of the transformer.
2. Put the transformer and connector in a dry place or only use indoors. Take care that no water gets into the transformer and the connector on the cable along the supply line.
3. The transformer will heat up when in operation. Do not cover the housing and make sure there is sufficient air circulation.
4. Keep electrical appliances out of the reach of children.
5. The bulb is too hot to touch when it is in operation. Turn it off and allow it to cool before touching.
6. Never touch the transformer and the main plug with wet hands.
7. Always unplug the light from the electrical outlet before handling or removing the light from the water.

FEATURES

- **LED accent light that shimmers in the bubbling water.**
- **Made of ceramic for a beautiful glossy appearance.**

- **Unique jar fountain with a single stream and a natural stone look.**
