PDMIUSB50

Computer Desktop Microphone

Streaming & Pro Audio Recording Mic with Tripod Stand,
Easy USB Plug-and-Play (for Podcast Recording, Streaming, Gaming)

USER MANUAL

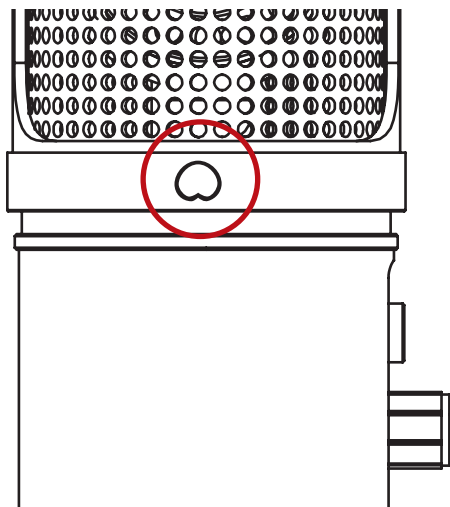

Description

Designed for computer-based recording, this microphone is ideal for digitally capturing music or any acoustic audio source using your favorite recording software. Equipped with a USB digital output, the **PDMIUSB50** offers studio-quality articulation and intelligibility perfect for home studio recording, field recording, podcasting, and voiceover use. The cardioid polar diagram gives greater sensitivity in the sounds and features a low-mass diaphragm, custom -engineered for extended frequency response and superior transient response.

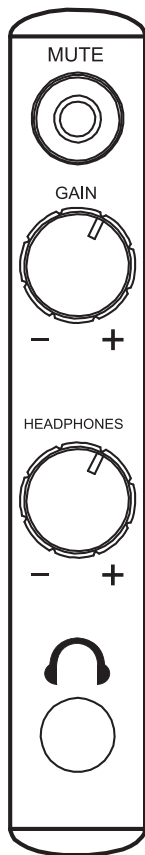

Installation

1. Place the tripod on the bottom of the microphone, screw the base of the microphone to the support nut.
2. Set the microphone tilt angle with the bracket pin.

3. Plug the free end of the provided USB cable into the USB 2.0 port on your computer.
4. Place the Pop Filter if desired on the top of the microphone.
5. Place the Windscreen if desired between the stand and microphone.
6. The direct position to which you have to direct the voice towards the microphone is marked by a  symbol.

7. Control the gain, volume of the headphone input, mute, etc. using the side controls of the microphone.

Software

This device is plug and play, does not require drivers or software. Windows will automatically recognize that the microphone is connected.

Safety, Maintenance and Recycling Instructions

- 1. Caution:** To avoid electric shock, never open or touch the inside of this apparatus.
- 2. Do not use this apparatus in a water or moistures environment**
- for ex., near a bath tub, washbowl, kitchen sink, or laundry tub, in a wet basement, near a swimming pool, in an unprotected outdoor

installation, or any area which is classified as a wet location.

3. Never push objects of any kind into this apparatus through openings as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock.
4. This apparatus should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power supply you plan to use, consult your appliance dealer or local power company. For apparatuses intended to operate from battery power, or other sources, refer to the operating instructions.
5. Clean the product with a soft and dry cloth.
6. Follow local regulations for disposing of the product.

Recycled

AEE REI-RAEE 5548 In this manual, the container (bin) symbol indicates that the product is subject to the European directive 2 002/96 / E C, electrical and electronic products, batteries, and

other accessories must necessarily be subject to a selective collection. At the end of the life of the device, make use of the recycling bins. This gesture will help reduce the health risks and preserve the environment. Municipalities and distributors, will provide essential details on recycling your old device. If this device carries an internal battery, it must be removed and deposited separately for proper management.
