Outdoor Accents®
decorative hardware

Outdoor Accents®
decorative hardware

Where great backyards begin.

Strength and beauty go together with Outdoor Accents® decorative hardware from Simpson Strong-Tie. Our complete line of structural connectors and fasteners makes it easy to add both effortless style and tested strength to all your outdoor structures and living spaces. An innovative hex-head washer and fastener combo provides the look of a bolted connection but installs as simply as driving a screw. Plus, our code-listed connectors and fasteners are rigorously tested for performance. So whether you're designing a pergola or a pavilion, it will be strong, safe and beautiful for years to come.

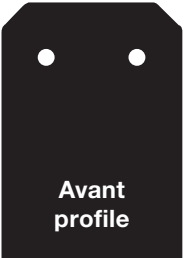

Avant Collection™

Simple. Clean. Timeless.

The Avant Collection features straight edges and chamfered corners, offering a clean, contemporary look that complements nearly every design.

A. Gable Plate

B. T Strap

C. Heavy Angle

Dream it. Design it. Build it.

Mission Collection®

Elegant style.
Enduring strength.

The Mission Collection is designed with a mission-style arched profile that adds a touch of traditional flair to your outdoor projects.

- A. T Strap
- B. Heavy Angle
- C. Decorative Washer
- D. Deck Joist Tie
- E. Post Base

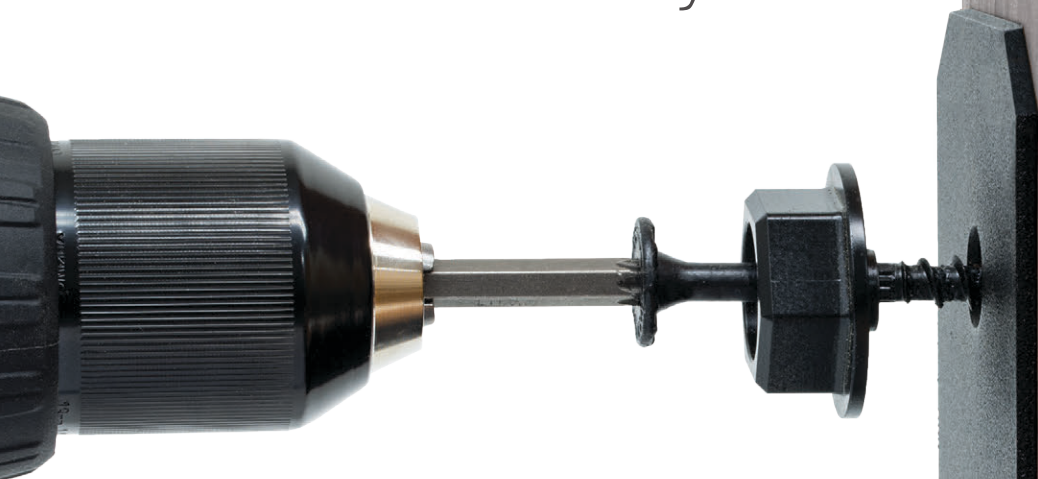

Got any plans this weekend?
Find ours online.

Whether you want to add a potting bench, a garden trellis or a sturdy bench to your backyard, we've got free plans to help you get started. Visit strongtie.com/diy for inspiration, helpful hints and free project plans. Complete with a list of the lumber sizes and connector quantities for each project, you'll find all the information you need to get the job done.

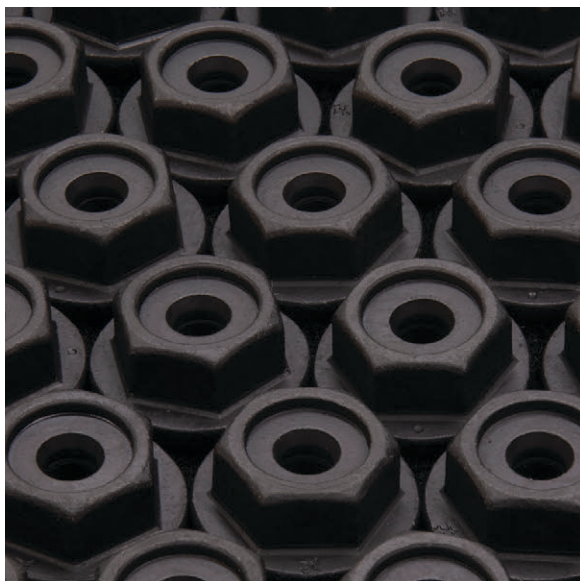

Fasten with style.

Our hex-head washer and structural wood screw combo is the only fastener tested, code-listed and approved for installing Outdoor Accents connectors. With a sleek black finish and innovative design that makes installation as simple as driving a screw, you'll add effortless style and tested strength to any outdoor structure. Fastener holes on the connectors are slightly offset to help prevent fastener interference.

Outdoor Accents Connector Screw

- Reduces installation time by driving easily without predrilling
- Black double-barrier coating offers a premium look while providing a medium level of corrosion resistance for many outdoor applications
- Sharp point enables fast starts
- Not for use with STN22 hex-head washer

Outdoor Accents Structural Wood Screw

- Use with Outdoor Accents decorative hardware and STN22 hex-head washer (sold separately) for the look of a bolted connection and a code-listed solution
- Reduces installation time by driving easily without predrilling
- Patented SawTooth® point (3½" and 5½" screws only) ensures fast starts and reduces installation torque; Type-17 point on 2" screw ensures fast starts

Note: The 2" screw has lower load values than the 3½" and 5½" screws. It may not be substituted where the longer screws are required.

Outdoor Accents Hex-Head Washer

- Installed with the structural wood screws, the STN22 hex-head washer provides a structural load-rated solution
- Patented design enables an easier and faster installation time than through-bolting
- Designed to help fasten Outdoor Accents connectors, including post bases, T and L straps, heavy angles, gable plates, heavy joist hangers and more

All Outdoor Accents structural connectors are tested and code listed, and install with our innovative structural wood screw and hex-head washer combination. Complete allowable load tables are available at strongtie.com/outdooraccents.

Product Descriptions

Avant

Mission

Post Bases

- Secure wood posts to concrete
- 1" standoff to help prevent decay at post end
- Available for lumber in both nominal and rough sizes

Decorative Side Plates

- Adds a symmetrical finished look to an installed post base
- Optional addition; sold separately from the post base

Heavy Angles

- 90° angles make connections stronger and provide consistent, straight corners

Light Rafter Ties

- 90° angles make connections stronger and provide consistent, straight corners

Knee Braces

- Makes installation of 45° knee brace connections fast and easy
- Attaches knee braces to posts and beams
- Available in two sizes to accommodate 4x and 6x lumber

Joist Ties

- Attaches 2x joists to the side of 4x or larger support posts
- Installs quickly and easily

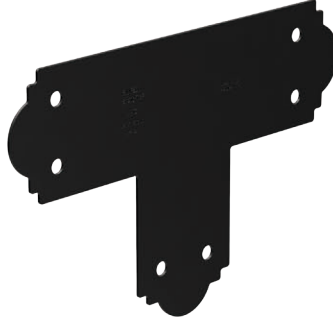

Avant

Mission

L Straps

- Ideal for end beam connection of beam to post
- Reinforce connections where one lumber piece intersects another at a 90° angle

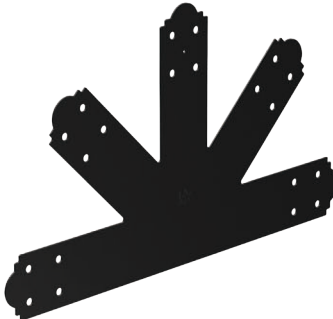

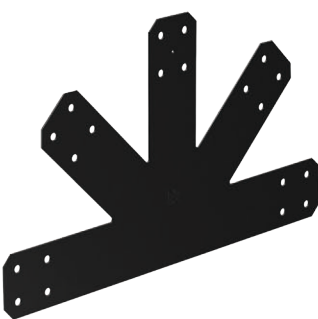

T Straps

- Connects beam to post
- Reinforces connections where one lumber piece intersects another at a 90° angle

Flat Straps

- Accommodates both nominal and rough sizes
- Connects two beams together or adds decorative accents to any project

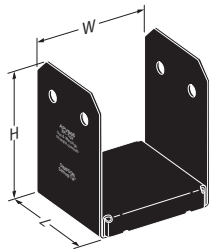

Gable Plates

- Adds flair and additional strength to any outdoor living structure
- Reinforces a connection from a wood beam to three angled wood braces
- Three sizes available: 6:12 pitch (27°), 8:12 pitch (34°) and 12:12 pitch (45°)

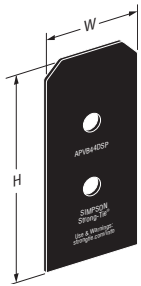

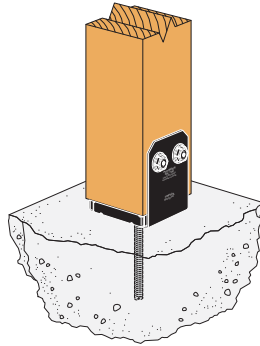

Decorative Washers

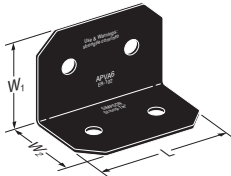

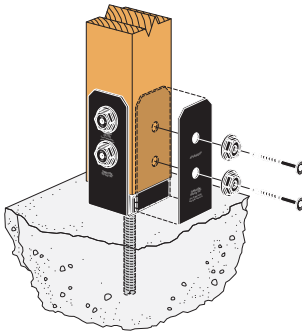

- Adds decorative flair to any outdoor or indoor project
- Can be used in a variety of wood-to-wood connections
