GRASS SEED BARE SPOT

FOR QUICK LAWN REPAIR

NOTICE: Arbitration/conciliation/mediation required by several states. Under the seed laws of several states, arbitration, mediation, or conciliation is required as a prerequisite to maintaining a legal action based upon the failure of seed, to which this notice is attached, to produce as represented. The consumer shall file a complaint along with the required filing fee with the commissioner/director/secretary of agriculture, seed commissioner, or chief agricultural officer within such a time as to permit inspection of the crops by the designated agency and the seedsman from whom the seed was purchased. A copy of the complaint shall be sent to the seller by certified or registered mail or as otherwise provided by state statute.

3 EASY STEPS

FOLLOW THESE INSTRUCTIONS TO WOW YOUR NEIGHBORS

EN TRES PASOS SENCILLOS

Siga estas instrucciones para impresionar a sus vecinos

STEP 1

PREPARE

FOR BARE SPOTS:

Start by mowing existing grass as short as possible followed by removing debris. Then rake the soil to loosen and smooth the top layer.

PARA ZONAS CON HUECOS O CÉSPED NUEVO: Retire los desechos y luego rastre la tierra para aflojar y suavizar la capa superior.

STEP 2

APPLY SEED

Sow the seed and gently rake to cover.

APLICACIÓN: Plante las semillas y pase ligeramente el rastrillo para cubrir las.

STEP 3

WATER

Keep the area well watered until the seed germinates and the seedlings have grown sufficiently to cover bare spots, then water as needed.

RIEGUE: Mantenga bien regada el área hasta que germinen las semillas y las plántulas hayan crecido lo suficiente para cubrir las áreas vacías. Después riegue según sea necesario.

ADDITIONAL CARE TIPS

- 1 Mow lawn when grass height reaches 3" tall
- 2 Avoid removing more than $\frac{1}{3}$ of the total grass blade length in any single mowing
- 3 Hot summers can be stressful on your lawn; increase the mowing height during hot and dry periods to reduce stress on your lawn

MOST IMPORTANTLY - Don't kill the grass before it starts by using weed control (pros call it preemergent) on your lawn until your grass has reached its full mowing height of 3"
