

Troubleshooting:

If the solar light does not work at dusk after a full day charge, please try the following steps:

1. Make sure the solar panel is not being affected by any other light source.
The built-in sensor will activate the light only when the surrounding is dark.
2. Make sure the solar light is not positioned in the shade during the day.
3. Make sure the switch is in "ON" mode.
4. Check the batteries are correctly installed and in good condition.

■ User manual for BTR Solar light

- Please read this manual carefully before using your product for the first time.
- Should you find the light diffuser broken, it is probably caused by occasional damages during transportation, please contact the seller/distributor for replacement.
- Please keep this manual in good condition, as you might need it for the battery replacement in future.

PARTS LISTING			
Inclusive of Part Number	Description	Qty	Picture
#1	Light Head	1 PC	
#2	Connection Tubes	2 PCS	
#3	Spike	1 PC	

Specification:

Solar panel: 3.84 V, 60 mA

6 LEDs X 0.06W

2 Built batteries: 1600mAh 1.2V, AA

Suitable Places: Lawn, Garden, Park, Path, etc

Assembly and Placement:

- Step 1: Carefully remove all the parts from the box.
- Step 2: Assemble all the parts by following the image listed below.
- Step 3: Place the light into the ground as shown in the image and turn the ON/OFF switch to "ON" mode, make sure the solar light is placed in a position where sunlight will reflect on the solar panel free from cover and shade.
- Step 4: Make sure the solar panel is not going to be illuminated by any other light sources; otherwise the light will not be able to switch ON at dusk.

Care and Maintenance:

Clean the solar module regularly with a damp towel to guarantee optimum performance of the solar panel. Do not use any type of solvent for cleaning and be careful not to put too much pressure on the module while cleaning.

Please note that the built-in rechargeable batteries need to be replaced after several years (depending on the climate conditions of your area). To do the replacement, please follow the image above.
