

There are 3 brackets on your mirror and 2 sets of screws. Decide which direction you would like to hang your mirror and only use 2 brackets.

To hang your mirror vertically use brackets A & B

To hang your mirror horizontally use brackets A & C

Hanging Instructions:

1. Place 1 piece of painters tape over the 2 brackets you've chosen
2. Poke holes in the tape where they cover the bracket cross.
3. Carefully remove the painters tape from the back of the mirror and place it on the wall where you would like to hang the mirror.
4. You will be able to see exactly where to place your screws.
5. Drill screws (included) and remove the painters tape from the wall.
6. Hang your mirror
