

JEAREY

Comfortable seat

Large seat, tall backrest, and wide armrests make it a seating solution built for rest, relaxation, and rejuvenation.

Our Adirondack Chair is built with virgin high density hard plastic (HDPE / HIPS), which withstands all kinds of climates including hot sun, snowy winters, freezing rain, salt spray, and strong coastal winds. Meanwhile, it is waterproof and resistant to stains and corrosive substances, so it needs low maintenance, you just need to wash it with mild soap, wipe with damp cloth, rinse with water.

UV PROTECTEC

Color retention technology

UV inhibitors and stabilizers protect the chair from harmful environmental degradation, and are used with light stable pigments throughout the material.

WEATHER RESISTANCE

Material suitable for all kinds of weather.

Our all weather materials are designed to withstand all four seasons and various climates, including scorching sun, snowy winters, salt splashes and high winds.

RECYCLED PLASTICS

Recycled plastic

The chair can be recycled, and the material is continuously recycled, which is conducive to saving resources.

LOW MAINTENANCE

Low maintenance

The chair is resistant to stains and corrosive substances, not easy to break, chip, peel or rot.
