## How It Works:

Link the pieces together on a stable surface to create your own unique obstacle course!

To connect the pieces:

1. Line up the ends of the pieces you want to connect.
2. Tilt the pieces slightly toward each other at opposite angles (as if making an X with the ends).
3. Insert the tabs on each piece into the slots on the connecting piece.
4. Tilt the pieces back away from each other so they sit flat and the tabs are locked into place.
