

40.4inch / 1025mm

This is a detailed product image of a portable industrial steam cleaner. The unit is a bright orange, cylindrical tank mounted on a four-wheeled frame. The top of the tank features a control panel with a pressure gauge, a safety valve, and a handle. A black flexible hose is connected to the side of the tank, leading to a spray gun with a long nozzle. The unit is designed for industrial cleaning tasks.
