IMPORTANT

- ☐ Shade variations and patterns are an inherent characteristic of stone (e.g. granite, marble, engineered stone). Stone tops will vary from product to product. Use caution placing items such as soap or any fragranced material on the stone surface. Use a soap dish, coaster or similar item to protect the surface if placing any soap or fragranced products on the stone.
- ☐ If soap or fragranced products come in contact with the stone top, rinse the surface with water and dry using a soft non-abrasive cloth.
- ☐ **WARNING:** Must use cleaning agents safe for stone. Check your cleaning agents use restrictions before using on any stone. Damage to the stone may result. The manufacturer not responsible for damage caused by improper cleaning agents or soaps used. Warranty will not cover damage caused by the use of improper soaps or cleaning agents.
- ☐ **DO NOT** use products to clean the stone top that contain acetone, lemon, vinegar or other acids as these may cause damage to the stone surface.
- ☐ Periodically reseal the stone top using an appropriate stone sealer available from your local home store. Follow the manufacturer's directions on how to apply.

ASSEMBLY

1. Applying silicon to the Backsplashes

- Apply silicone to the unpolished back side, bottom, and one side of the backsplashes (A) for 49-72" backsplash.
- Place the backsplashes (A) on the vanity.
- Be sure to align the backsplash (A) with the top of the vanity.

Note: Make sure the veining is matched between two backsplashes when the backsplashes come in two pieces and have veining on them.

For 25 -> 37 inch backsplash

For 49 -> 72 inch backsplash

ASSEMBLY

2. Applying silicon to the Sidesplash (if purchased)

- Apply silicone to the unpolished back side, bottom, and the side touches backsplash (A) of the sidesplash (B).
- Place the sidesplash (B) on the vanity.
- Be sure to align the sidesplash (B) with the top of the vanity.

3. Removing silicon to the backsplashes and sidesplash

Gently remove excess glue from the connecting area.

ASSEMBLY

4. Needing time for silicon to be dried

Let the vanity and backsplashes, sidesplash sit for 24 hour before use.
