

## 1. Identification

1. Identification			
Product identifier	KILZ® Interior/Exterior Acrylic Basement & Masonry Waterproofer - White/Tint Base		
Other means of identification			
Product number	2390		
Recommended use	Architectural Coating		
Recommended restrictions	None known.		
Manufacturer/Importer/Supplier	/Distributor information		
Supplier	Masterchem Industries LLC		
	3135 Old Highway M		
	Imperial, MO 63052-2834		
Telephone	636-942-2510		
Emergency telephone	+1 760 476 3962		
	+1 866 519 4752		
Access code	335213		
2. Hazard(s) identification			
Physical hazards	Not classified.		
Health hazards	Carcinogenicity Category 2		
OSHA defined hazards	Not classified.		
Label elements			
Signal word	Warning		
Hazard statement	Suspected of causing cancer.		
Precautionary statement			
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection.		
Response	If exposed or concerned: Get medical advice/attention.		
Storage	Store locked up.		
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.		
Hazard(s) not otherwise classified (HNOC)	None known.		
Supplemental information	None.		
3. Composition/information	on on ingredients		
Mixtures			

CAS number	%
1317-65-3	10 - 30
13463-67-7	5 - 10
14807-96-6	1 - 5
13983-17-0	1 - 5
1302-78-9	0.1 - 1
330-54-1	0.1 - 1

KILZ® Interior/Exterior Acrylic Basement & Masonry Waterproofer - White/Tint Base953759Version #: 01Revision date: -Issue date: 17-April-2020

Quartz (Crystalline silica)	14808-60-7 0.1	- 1
Composition comments	All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are percent by volume. The manufacturer has claimed the exact percentage as trade secret under the OSHA Hazard Communication Standard.	
4. First-aid measures		
Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.	
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persis	ts.
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.	
Ingestion	Rinse mouth. Get medical attention if symptoms occur.	
Most important symptoms/effects, acute and delayed	Direct contact with eyes may cause temporary irritation.	
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under Symptoms may be delayed.	observation.
General information	IF exposed or concerned: Get medical advice/attention. Ensure that medical person of the material(s) involved, and take precautions to protect themselves.	inel are awar
5. Fire-fighting measures		
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.	
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.	
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case	e of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.	
Specific methods	Use standard firefighting procedures and consider the hazards of other involved ma	terials.
General fire hazards	No unusual fire or explosion hazards noted.	
6. Accidental release meas	ures	
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leal appropriate protective equipment and clothing during clean-up. Ensure adequate ve authorities should be advised if significant spillages cannot be contained. For person see section 8 of the SDS.	ntilation. Loc
Methods and materials for	This product is miscible in water.	
containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material possible. Absorb in vermiculite, dry sand or earth and place into containers. Followin recovery, flush area with water.	
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thor remove residual contamination.	oughly to
	Never return spills to original containers for re-use. Put material in suitable, covered containers. For waste disposal, see section 13 of the SDS.	, labeled
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.	
7. Handling and storage		
Precautions for safe handling	Obtain special instructions before use. Do not handle until all safety precautions have and understood. Avoid prolonged exposure. Should be handled in closed systems, i Provide adequate ventilation. Wear appropriate personal protective equipment. Obs industrial hygiene practices.	if possible.
Conditions for safe storage, including any incompatibilities	Store locked up. Store in tightly closed container. Store away from incompatible ma Section 10 of the SDS).	terials (see

ogical limit values	No biological exposure limits noted for th	-	
ropriate engineering rols	Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.		
vidual protection measures, Eye/face protection	such as personal protective equipment Wear safety glasses with side shields (or		
Skin protection		0 00/	
Hand protoction	Mean appropriate chemical registrant alou		

## Hand protection Wear appropriate chemical resistant gloves.

Skin protection		
Other	Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended.	
Respiratory protection	If airborne concentrations are above the applicable exposure limits, use NIOSH approved respiratory protection. Use a positive-pressure air-supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection.	
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.	
General hygiene considerations	Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.	

## 9. Physical and chemical properties

Appearance

Appearance	
Physical state	Liquid.
Form	Liquid.
Color	White.
Odor	Slight.
Odor threshold	Not available.
рН	7 - 10
Melting point/freezing point	Not available.
Initial boiling point and boiling range	> 99 °F (> 37.2 °C)
Flash point	Not applicable.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or expl	osive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	1.43
Solubility(ies)	
Solubility (water)	Soluble.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	50 - 140 KU at 25°C
Other information	
Density	11.92 lbs/gal
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
VOC	47 g/l (including water) (Material) 96 g/l (excluding water) (Coating)

# 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transp	port.
Chemical stability	Material is stable under normal conditions.	
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.	
Conditions to avoid	Contact with incompatible materials.	
Incompatible materials	Strong oxidizing agents.	

## 11. Toxicological information

### Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	Prolonged skin contact may cause temporary irritation.
Eye contact	Direct contact with eyes may cause temporary irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation.

### Information on toxicological effects

Acute toxicity

Components	Species	Test Results	
Quartz (Crystalline silica) (CAS 14	1808-60-7)		
<b>Chronic</b>			
Inhalation

Quartz (Crystalline silica)		Cancer	
Reproductive toxicity		ted to cause reproductive or developmental effects.	
Specific target organ toxicity - single exposure	Not classified.		
Specific target organ toxicity - repeated exposure	Not classified.		
Aspiration hazard	Not an aspiration hazard.		
	ent & Masonry Waterproofer -	Nhite/Tint Base SDS	

Chronic effects	Prolonged inhalation may be harmful.
12. Ecological information	
Ecotoxicity	Harmful to aquatic life with long lasting effects.
Persistence and degradability	
Bioaccumulative potential	No data available.
Mobility in soil	No data available.
Other adverse effects	The product contains volatile organic compounds which have a photochemical ozone creation potential.

## 13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

## 14. Transport information

#### DOT

Not regulated as dangerous goods.

#### ΙΑΤΑ

Not regulated as dangerous goods.

#### IMDG

Not regulated as dangerous goods.

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code
