

US.SHOVEL

Assembly Instructions for BR24BGM, BR24BGF & BR24BGR Models.

Hello,

We thank you for selecting your US.SHOVEL Broom. Assembly is minimal and can be easily done by following the few simple steps below:

Components List:

1. HandGrip
2. Handle
3. Broom head
4. Support brackets
5. Screws - Phillips head

Assembly:

1. To attach handle to the broom head.
 - a) Completely insert and thread handle into broom head.
2. To attach your Hand-grip to handle.
 - a) Completely insert handle into Hand-grip as shown in Fig 1.
 - b) Place broom on a flat non-abrasive surface to align Hand-grip and broom head as shown in Fig. 1 & 2.
 - c) Securely tighten Hand-grip with screws provided with a Phillips-head screwdriver.

Fig 1.

3. To attached Support Brackets follow instructions packaged with brackets.

Maintenance:

1. Check all fasteners at frequent intervals for proper tightness to be sure the broom is in safe working condition.
2. Do not use broom if any component becomes damaged.

Proper use:

Your US.SHOVEL Broom provides you power, comfort and back-pain relief like no other broom can.

- a) The Hand-grip allows you to maintain an upright neutral spine reducing or eliminating lower back pain. There is no need to bend at the waist to push your broom forward.
- b) The Hand-grip accommodates both hands for greater control leading to less physical exertion and greater comfort.
