

Black Gold Snake Plant Sansevieria

Sunlight

Medium to bright indirect light. Minimal direct sunlight.

Water

Let top 1 -2" of soil dry out between waterings. Do not let plant sit in water.

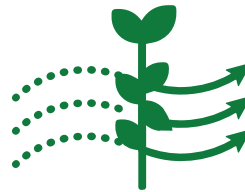

Pet Friendly

Can be mildly toxic if ingested

Mature Size

Height: 24 - 36"
Width: 12 - 24"

Air Purification

Excellent – removes multiple airborne toxins

Plant Hardiness

Outdoor: Zones 10 - 12
Indoor: ANY ZONE

Indoor Care Tips

Use a cactus mix or African Violet mix with added sand. A well draining pot is needed.

Outdoor Care Tips

- Plant in well-draining area; in-ground or a planter
- Bring indoors when temp goes below 50° F

Expert Advice

- Average humidity
- Very easy to grow
- Very hardy
- Prefers bottled water or rain water
