

Touch up kit includes:

- One 4 oz. touch up bottle
- Two fillable dauber markers
- Two fillable valve markers
- Replacement dauber heads and marker
- Four plastic pipettes for transferring material into markers

Dauber Bottle

Shake bottle well. To apply with dauber provided, stamp dauber on scrap piece until material flows. Stroke in direction of larger repair or edge.

To remove material for transfer into marker use the pipettes included. Replace cap on bottle to prevent product from drying out.

Dauber Marker

For minor restoration of finished boards and edges. Once marker is filled, stamp dauber on scrap piece until marker flows through the nib. Stroke in direction of scratch or repair area.

Marker

For minor restoration of finished boards and edges. Once marker is filled, compress nib of marker with nib pointing up. Test on scrap piece by compressing nib until marker flows through the nib. Stroke in direction of scratch or repair area.
