SIMPLY CONSERVE

PRODUCT & CONNECTED DEVICE WARRANTY

Model #: SC73T1

PRODUCT WARRANTY:

This advanced power strip has a limited lifetime warranty. The original product, under ownership of the purchaser or recipient from a utility conservation program, shall be free of defects in product design, materials and or workmanship. AM Conservation Group will replace any defective product free of charge, assuming the product meets the criteria outlined below.

CONNECTED DEVICE WARRANTY:

AM Conservation Group will repair or replace any devices, at its option, that are damaged due to a voltage surge or lightning strike when the advanced power strip is properly connected to a grounded AC outlet. Under this limited warranty, any damaged devices that cannot be repaired at a reasonable rate will be replaced at the discretion of AM Conservation Group with a device of equal performance based on the most cost-efficient option between fair market price or the original purchase price of the device, up to a maximum amount of \$20,000.

The current value of the device will be determined by the value stated on UsedPrice.com.

SIMPLY CONSERVE

WARRANTY CRITERIA:

AM Conservation Group reserves the right to review the damaged advanced power strip, plugged-in devices and the connection location where the damage occurred. Shipping costs of both the advanced power strip and any connected devices is the sole responsibility of the purchaser or recipient (utility conservation program). If it is not cost-effective to ship any damaged devices or the advanced power strip to AM Conservation Group, we reserve the right to negotiate with a local inspection/repair company to provide repair services. Any shipping or travel charges are the sole responsibility of the purchaser or recipient.

All devices that are plugged in to the advanced power strip must remain available for inspection by AM Conservation Group up until the date any claim is settled. AM Conservation Group reserves the right to be subrogated under any existing insurance policies of the claimant.

The warranty will be null and void when:

1. The advanced power strip is not provided to AM Conservation Group for inspection at our request, or we are presented with any refusal to inspect the site of damage.

2. It is determined that the product has not been installed according to our instructions or the product has been tampered with or altered in any way.

3. It is determined that any plugged-in device has stopped working properly, not due to a power surge or lightning strike. The plugged-in device warranty will cover any non-working issues. This will be determined if the advanced power strip does not show any sign of damage due to a voltage surge or lightning strike.

4. The advanced power strip is not plugged in directly to a grounded 120-Volt AC socket.

5. The advanced power strip is not exclusively used in specified operating conditions. Unsafe conditions include usage outdoors or under extreme high or low temperatures. Not to be used near aquariums, any damp or wet locations such as a manufacturing environment, or other water-related products or environments.

6. The advanced power strip is plugged in to an extension cord, adapter, or three- to two-prong ground bypass adapters.

7. The advanced power strip is "daisy-chained" with other power boards, UPS devices, extension cords or other surge protection devices.

The SC73T1 Advanced Power Strip (or any connected devices) warranty is not covered in the event of an act of God except for lightning. This includes flooding, earthquake, war, vandalism, erosion, damage due to abuse or hitting of the APS.

CLAIMS:

Please e-mail us at customercare@amconservationgroup.com and include the following information:

- 1. Part number of advanced power strip
- 2. A list of devices connected to the advanced power strip at the time of surge or lightning strike
- 3. The date the surge or lightning strike occurred
- 4. The location you purchased the product (if purchased)
- 5. Proof of purchase (if purchased) or the name of the utility that provided the product

In the event you do not have access to e-mail, please call: 843-971-1414 and you will be directed to a customer service representative.
