Safety Warnings and Use Precautions

- This product is only for home use, not for commercial or industrial use, nor for outdoor or humid places.
- Supervise use for children and people with physical and mental disabilities.
- Please use the machine in a safe environment and under the instruction and supervision of a person who understands the safe use method and dangers of the product. In the absence of such a person, never let a child use it.
- Please pay attention when using it near children and pets. In addition, please do not let children and pets play with this product.
- Please do not touch the power plug and the product with wet hands.
- Do not use this product if the power cord or power plug is damaged.
- Do not use this product if the power cord is damaged or if the product is not working normally or damaged; contact our company.
- Please do not disassemble the product; the wrong assembly method may cause electric shock or fire; please contact our company if maintenance is needed.
- Please do not inhale flammable or combustible liquids such as gasoline; in addition, please do not use the machine in or near an environment with flammable or combustible gases.
- Do not pull the power cord, do not put heavy objects on top of the machine, and do not pinch the cord.
- Do not use it while smoking or working with other high-temperature items (matches, hot ash, etc.).
- Please do not put things into the opening or block the opening.
- Please unplug the power cord when you need to change the parts or conduct maintenance.
- Please do not use or keep it outdoors or in other wet places.
- Please do not use products with fragrance as the fragrance may contain flammable chemicals.

Use Precautions

- Please do not operate with wet hands or unplug the power cord to avoid failure and electric shock.
- Please do not smoke or use other flammable material.
- Please do not use the machine in or near an environment with flammable or combustible gases.
- There may be a strange smell during the first use; however, it will not cause adverse effects on the body.
- When using this product for the first time, it will smell, but it will disappear after a while. Please understand, however, that if the scorching smell persists, stop using it immediately!
- Please keep the dust cup and filter clean; if the dust cup and filter are used while dirty, they may cause failure, and unexpected accidents may occur.
- During maintenance, turn off the power supply and unplug the power cord before proceeding.
- If the power is turned on for maintenance, it will cause electric shock, unexpected accidents, or injury.
- The product will stop working when the temperature rises abnormally; in case of abnormal heating of the motor, stop using it immediately. If the suction opening is blocked, please stop using it immediately. Take out the dust cup and clean the inlet and filter, then open it again after 60 minutes.
- Please be sure to install and use the filter; if you remove the filter, it will lead to failure.

Product Overview

Product Technical Parameters

Input	UK:220V-240V~50Hz/US:110V~130V~60Hz
Power	300W
Hose Length	1.5M
Dust Cup Capacity	1.5L
Product Size	302X220X130MM
Wire Length	2.5M
Maximum Noise	60dB

Operation Instructions

1. Install the Dust Cup

1. Align the snap-fit.

2. Press the dust cup down by your hand.

NOTE

If the device has no suction or is very noisy, please reinstall the dust cup.

2. Ready to Use

1. Connect the accessory to the vacuum cleaner through the hose.

2. Insert the plug into the socket.

3. Turn on the switch and begin vacuuming.

4. Select the speed you need. We suggest starting with silence mode for first-time use.

5. Grooming Your Pet.

6. The hair you collect can go straight into the trash.

NOTE

There are 3 Cleaning Modes: Silence Mode, Standard Mode, and Max Mode.

We suggest starting with the Silence Mode for first-time use as your pet will slowly get used to the noise.

Use of Different Accessories

1. Daily Grooming Brush

Used to clean floating hair and dander, making the hair more healthy, shiny, and soft.

2. Electric Clipper

- 1) Used to trim the pet's hair without leaving a mess as the hair will not fly around.
- 2) While cutting, it suctions the cut hair!

Use with vacuum or the clippers alone

3) Dual-purpose: can be used for pet hair trimming or with the device.

NOTE

Remember to pay attention to the cutting edge and position, and do not use excessive force as it causes skin irritation.

Install Guide Comb (used with electric clippers)

Choose the length guide comb according to the length of pet hair you want to leave.

The guide comb ((3mm/6mm/9mm/12mm/18mm/23mm)) is applicable for grooming different hair lengths.

- The guide comb set is small; keep it stored properly when it is not in use.

Install The
Guide Comb

Remove

3. De-shedding Brush

Used to remove the pet's long and unnecessary thick hair.

NOTE

During use, pay attention to the cutting edge and position, do not use excessive force as it causes skin irritation.

4. Cleaning Brush

Used to clean pet's paws or pet hair on clothes and furniture.

5. Crevice Tool

Used to clean hair on the furniture and or hard-to-reach areas.

6. Pet Paw Trimmer

Used to groom pet's paws, eyes, ears, face, and rump hair.

NOTE

During use, pay attention to the cutting edge and position, do not use excessive force as it causes skin irritation.

7. Pet Nail Grinder

Used to groom your pet's nails.

NOTE

Be careful on the soft parts of the pet's skin, and do not use excessive force as it causes skin irritation.

Care and Maintenance

Cleaning the Dust Cup

1. Press the remove button and take off the dust cup.

2. Press the release button and pour out the hair.

3. Assemble the dust cup according to the arrow direction.

- If the removed dust cup is cleaned with water or a wet cloth, be sure to install it after the dust cup is completely dry. Otherwise, it will damage the motor.
- Please take dust cup lightly, if it drops will damaged easily, if have any problems with the cup, please contact us on Amazon or contact us email: support@oneisall.com

Cleaning the Electric Clippers

1. Remove the blade by turning it counterclockwise.

2. Vacuum out and clean the debris from the blade and the clipper.

3. Place oil on the blade.

Note: Our products do not contain oil, you need to buy it yourself.

Cleaning the HEPA & Sponge Filter

1. Remove the dust cup and remove the HEPA & sponge filter.

2. Tap it or clean it with brush. Don't wash it with water.

3. Place the HEPA & sponge filter back into the machine.

Troubleshooting

Problems	Possible Causes	Solutions
Cannot be turned on	Plug not been inserted well	Reinsert the plug
	Switch not been turned on	Press switch button to turn it on
Weak suction	Flexible hose is clogged	Clean flexible hose and suction mouth
	Dust cup is too full	Empty dust cup
	Filter is dirty	Clean filter
The Pet Clippers heats up during use	Internal parts of the machine have debris	Please remove the blade. Wash and oil
The hose is broken	Accidental damage	The hose is detachable and can be stored in the bag we provided
	Bitten by pets at home	
Whistle-like noise when the machine is running	The Dust Cup snap is not aligned	Please check whether the Dust Cup is installed

- If the above solutions do not solve the problem, please stop using the product, and contact our customer support: support@oneisall.com

NOTE

The product is equipped with voltage protection device. If you hear a "didi" sound when you press the switch, and the gear lights are all flashing, it means that the machine voltage is not consistent. Please check your voltage. If you have any problems, please contact us at any time with our email support@oneisall.com
