**TowingMaster**

**3500LBS**

**12V DC ELECTRIC TRAILER JACK**

**TowingMaster**

**3500LBS 12V DC ELECTRIC TRAILER JACK**

**ONE-TOUCH OPERATION**  
No more cranking your arm off to raise or lower your trailer. With one simple push of a button the power stroke plus system raises or lowers your trailer 18 inches in just 30 seconds. And the drop leg gives you an additional 4.5 inches of travel for 22.5 in. total travel.

**FITS ANY A-FRAME**  
This versatile jack is pre-drilled for compatibility with any trailer featuring an A-frame coupler.

**MEASURES UP TO 10 IN. HEIGHTS**  
With 3,500 lbs. lifting capacity and 5,000 lbs. of breakaway capacity, this lightweight jack is up to the task. The jack measures 31.5 in. from the mounting plate to the top of the motor and has a 9in. retracted height from mounting plate to ground.

**TECHNICAL SPECIFICATIONS**

|                  |                                             |                |                     |
|------------------|---------------------------------------------|----------------|---------------------|
| LIFT CAPACITY    | 3500 LBS                                    | MAXIMUM HEIGHT | 9"                  |
| LENGTH OF TRAVEL | 22.5" (18" POWERED PLUS 4.5" DROP LEG)      | MAXIMUM TYPE   | PRE-DRILLED A-FRAME |
| MAXIMUM WEIGHT   | 5000 LBS                                    | MAXIMUM TYPE   | PRE-DRILLED A-FRAME |
| RETRACTED HEIGHT | 9" (9" FROM MOUNTING PLATE TO GROUND)       | MAXIMUM TYPE   | PRE-DRILLED A-FRAME |
| EXTENDED HEIGHT  | 31.5" (31.5" FROM MOUNTING PLATE TO GROUND) | MAXIMUM TYPE   | PRE-DRILLED A-FRAME |
