WATERPROOF + WATERTIGHT **WORRY-FREE™**

Patented WetProtect® technology offers a waterproof finish and watertight locking joints, which keeps liquids on the surface so they won't seep through to damage the subfloor below. Plus, Pergo offers the only complete waterproof flooring system that comes with a **lifetime surface and subfloor waterproof warranty.**

WITH WETPROTECT SUBFLOOR PROTECTION

Liquids stay on the surface so they won't seep through to damage the subfloor.

WITHOUT SUBFLOOR PROTECTION

Many waterproof floors only protect the surface of your floor, leaving your subfloor vulnerable to any water that leaks through gaps in the floor causing mold, mildew or subfloor damage.

Solid Performance. Simple Style. A Price For Any Budget.

Looks like hardwood. Performs like laminate. And it's totally worry-free.

Pergo Pro™ laminated wood floors offer popular wood looks with Pergo durability that are easy to install with a click-lock system and an attached pad. They're not only waterproof, they're wear, fade and stain proof and easy to maintain.

FULL-COVERAGE WATERPROOF SYSTEM

WetProtect is full-coverage waterproofing that is not only backed by a lifetime waterproof warranty — it's the only waterproof flooring system that comes with a lifetime surface and subfloor warranty.*

Pergo works hard so
you can play harder.

Built tough.

Our laminated wood floors are built to take the wear and tear of a busy family.

Finish repels water away from the joints and keeps moisture on the surface, where it can evaporate or be easily cleaned.

Protective overlay

Guaranteed not to wear, fade or stain.

Design layer

Pergo printing techniques reproduce color and details with remarkable clarity.

Premium HDF core board

A core of high-density fiberboard provides stability and dent resistance.

Watertight joints

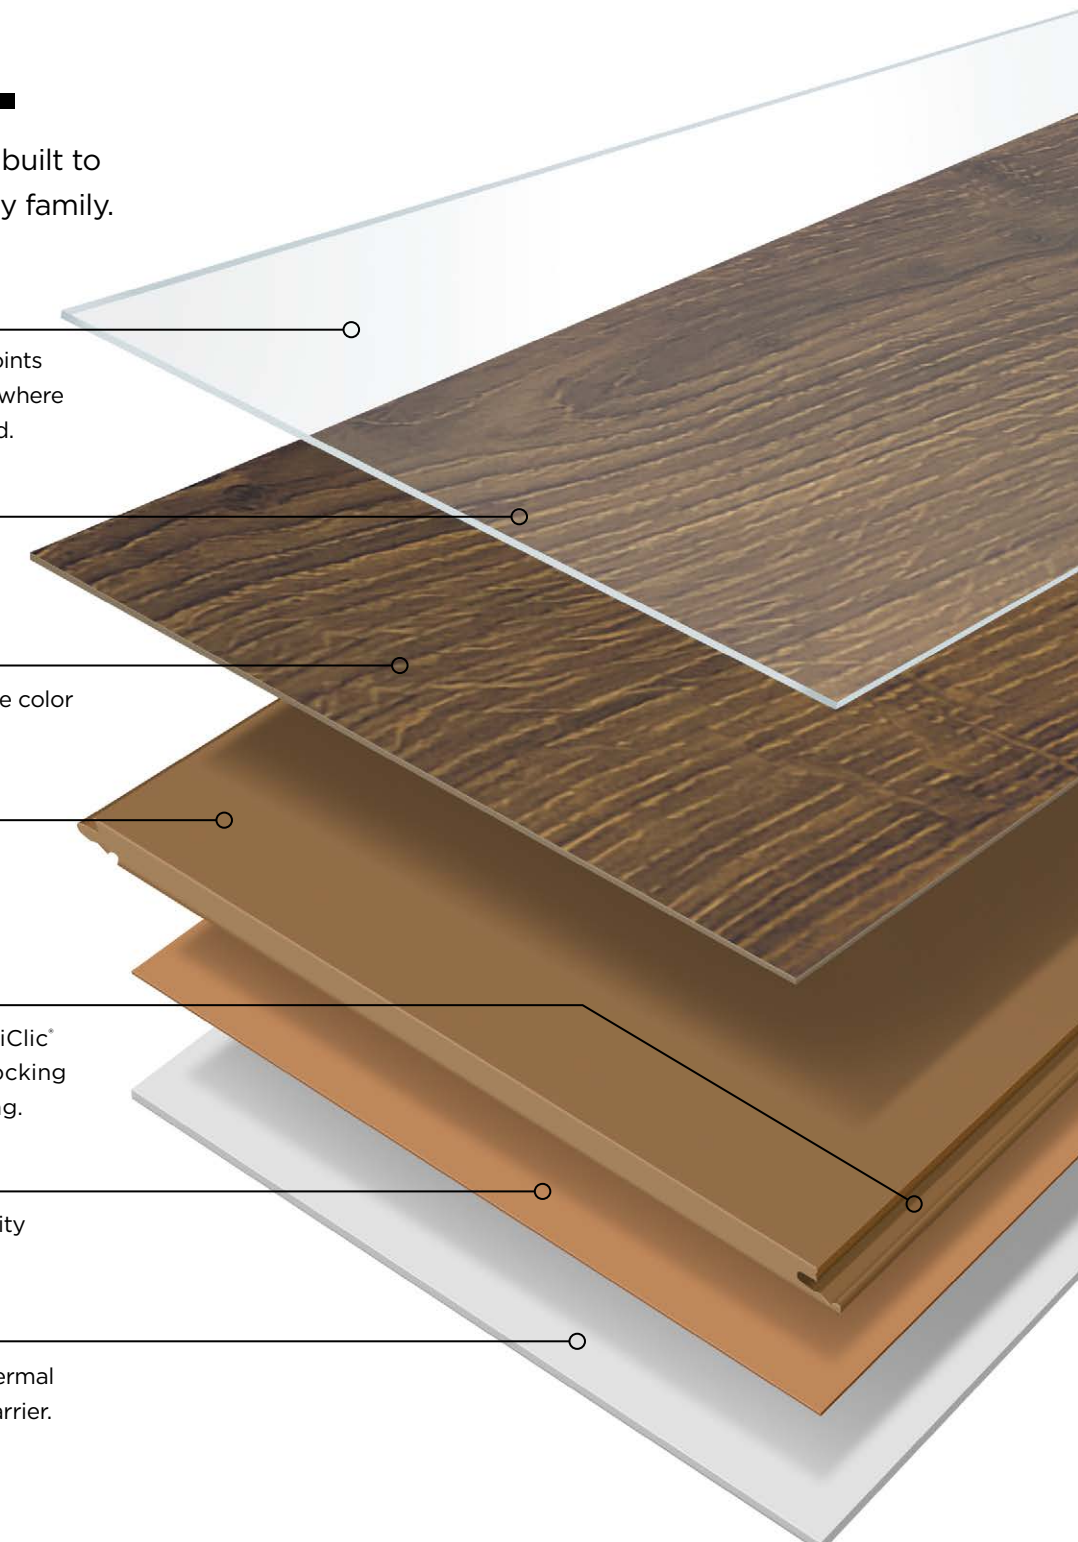

Precision milling and patented UniClic[®] technology provide the tightest locking system of any hard surface flooring.

Balancing backing layer

The balancing layer increases stability to prevent bowing or twisting.

Pre-attached underlayment

Premium attached foam pad for thermal insulation, cushioning and sound barrier.

Easy to install.

Pergo Pro™ laminated wood floors are waterproof, so you can install them anywhere in your home — including kitchens, baths, mudrooms, laundry rooms — even basements. To install our waterproof floors, follow the same basic installation instructions as a traditional laminate floor but with a few added steps to seal the perimeter of the room. You'll find complete installation instructions in the box and online at [lowes.com](https://www.lowes.com).
