

Hang Em Fast saves time and ensures proper alignment for most joist hangers. Follow the instructions below to save and headaches while building a floor or deck.

*** The Hang Em Fast works with 2x4", 2x6", 2x8", 2x10", and 2x12" joist hangers.**

Step 1: Slide the joist hanger into the Hang Em Fast and line up the tool with your mark. Make sure the bottom lip of the tool makes contact with the ledger board.

Step 3: Pull off the Hang Em Fast, leaving just the joist hanger.

Step 2: Use a nail gun to secure the joist hanger to the ledger board.
