

MAKE SPACE FOR WHAT MATTERS

Dearborn® Space-Saving Sink Drain Kits

OPTIMIZED FOR SPACE.
ENGINEERED FOR CONVENIENCE.

Traditional drain kits waste valuable space under the sink. Dearborn Space-Saving Sink Drain Kits reclaim that space with rigid, code-compliant components designed for fast, frustration-free installation.

- **More Storage** – Positions the P-trap at the back of the cabinet and raises the waste arm, making room for drawers, bins and better under-sink organization.
- **Installs Fast and Clean** – Telescoping arms adjust vertically and horizontally, eliminating guesswork and reducing cuts for easier alignment with existing plumbing, especially when dealing with an offset drain location.
- **Built to Code. Built to Last** – Rigid tubular construction ensures durable, leak-free performance. cUPC and IAPMO certified.
- **Complete, Ready-to-Go Kits** – Every kit includes all components needed for a standard single or double bowl install. No hunting for elbows or extensions.

With the Dearborn Space-Saving Sink Drain Kits

EASY INSTALL with telescoping arms that adjust for drain offsets
