

## Installation steps:

- 1-2. Adjust the length of the wire, then tighten the plastic nut to fix the height
3. Fix the hanging plate on the junction box with screws
4. Connect the main wire of the lamp body to the wire reserved on the junction box
- 5-6. Put the canopy on the junction box, then tighten the ball nut
7. Install the light source (without bulb)

## Notice:

1. Before installation, please check whether the parts are complete and whether the lamps are in good condition.
2. Cut off the power supply before installation, and then perform wiring.
3. Install the lamp body first, and then install the power supply.
4. Installation and maintenance must be carried out by professional and technical personnel.
