Qty. 2	Qty. 2	Qty. 2	Qty. 2

PREPARATION

Before beginning assembly of product, make sure all parts are present. Compare parts with package contents list and hardware contents list. If any parts are missing or damaged, do not attempt to assemble the product.

Estimated Assembly Time: 5 minutes

Tools Required for Assembly (included): Wrench

NOTE: You must follow all steps to properly assemble the firepit. Make sure the gas valve is turned “OFF” before assembling. Do NOT attempt to assemble without proper tools.

ASSEMBLY INSTRUCTIONS

1. Place cushions (AA) onto threaded part of handle (D). Insert handle (D) into holes on top of the lid (A).

Hardware Used

AA	Cushion		x 2
-----------	---------	---	-----

2. From underside of lid (A), place spring washer (BB) and then flat washer (CC) onto threaded part of handle (D). Secure with M6 nut (DD), tightening with wrench (E).

Hardware Used

BB	Spring Washer		x 2
CC	Flat Washer		x 2
DD	M6 Nut		x 2

3. Place pumice stones (C) into body (B).

! CAUTION

The screen in this firepit **MUST** be clear and free of obstructions at all times to ensure proper operation. Make sure the firepit is covered completely with pumice stones lest the flame extinguish occasionally.

ASSEMBLY INSTRUCTIONS

4. Place 20 lb. propane gas tank (not included) on top of the tank holder (F). Turn the preassembled wing screw on the tank holder (F) clockwise to secure the propane gas tank.

5. To install the propane gas tank to the body (B), first turn the cylinder valve on the propane gas tank clockwise to close the gas supply on the propane gas tank. Then, screw the regulator coupling from inside the body (B) onto the valve clockwise by hand only. Make sure it is fastened securely.

6. Cover body (B) with lid (A). To lock lid (A) in place, turn clockwise. To unlock, turn counterclockwise.
