

Hello, MY NAME IS:

Thanks
FOR BRINGING
ME **home!**

SPRUCE ME UP! I've been in a dark box traveling. Here are **quick tips** to get me settled:

- **Remove** yellow leaves or broken stems.
- If my soil is dry, give me a **drink of water**.
- Set me in the **right light**.

WATCH ME GROW! Keep this card for your records.
Care instructions are on the reverse side.

HERE'S HOW TO TAKE CARE OF ME

Bromeliad

LIGHT

I tolerate medium light well, but also grow in bright spots. I can handle some direct sun, but prefer the protection of a sheer curtain.

WATER

I can be watered regularly, keeping the soil evenly moist, or watered once every few weeks. I can handle small periods of drought.

FOOD

Feed me once or twice a year during Spring and Summer with a fertilizer formulated for houseplants.

FEATURES

I have stunning green leaves topped by clusters of red, orange, yellow, purple, or white flowers.

GROWING TIPS

After the main flower on your bromeliad begins to fade, the mother plant will begin to decline. Baby bromeliads (called pups) develop around the base. Grow these out and enjoy more bromeliads!

GIVE ME FRIENDS

(I play well with)

Snake Plants, ZZ Plant, or a Pothos
