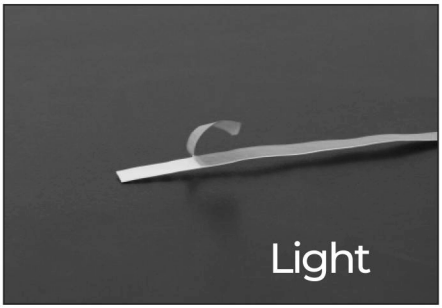
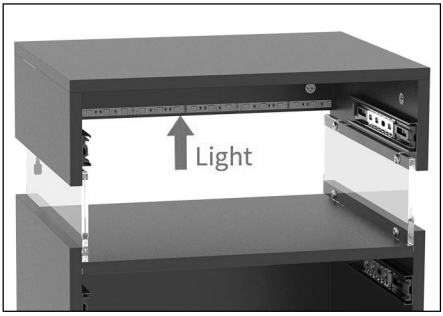
# step 11.

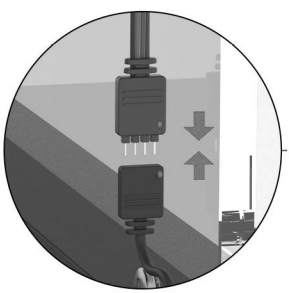
Stick the light strip inside the back panel for testing.

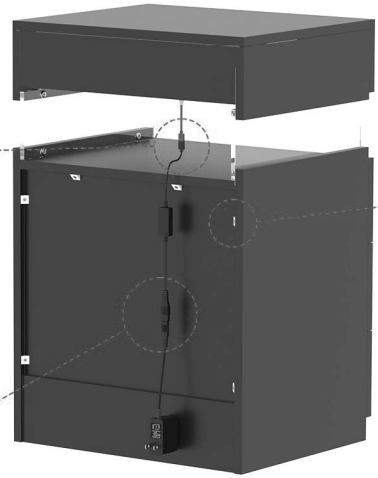
You can choose to paste it from left to right or from right to left.

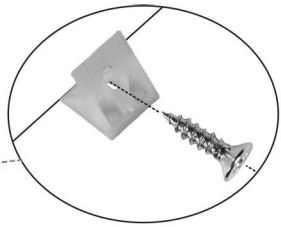
Note: If the light strip is not pasted correctly, it should be gently removed and avoid using too much force to prevent the lightstrip from breaking. If the light strip is not on or damaged, please contact the online seller in a timely manner.











As the picture shows.
Fix hardware "E" into the gap with screwsto make the back panel more stable.
