

# Thank You

for bringing me home!

## Spruce Me Up

I've been in a dark box traveling. Here are some quick tips to get me settled:

- Remove yellow leaves or broked stems.
- If my soil is dry, give me a drink of water.
- Set me in the right light.

## PLANT CARE

# Tetrasperma Mini Monstera

### Light

I like bright, indirect light where I cast a strong shadow at least a couple of hours a day, but don't mind medium light.

### Water

I don't want my roots to stay wet, so let the top inch or two of the potting soil dry before you water me again.

### Food

I don't need a lot of fertilizer, so you can feed me once or twice in spring and/or summer. You can feed me more often if you want me to grow faster.

### Features

I give you the look of the traditional monstera, but take up much less space.

### Growing tips

I prefer average to above-average relative humidity levels. Repot me every year or two, as my roots fill at least 75% of the pot.

### Give me friends! I play well with:

Monstera Peru, Monstera Little Swiss, Pothos Baltic Blue
