1

Install by clipping the Stake onto the 1/4in. Vinyl or 1/4in. In-Line Drip Tubing.

2

Now press the Stake into the ground at the desired location.

Whether holding a Dripper in a pot, or securing the 1/4 in. In-Line Drip or Vinyl Tubing, these Support Stakes make laying out a system easier.

Con este convertidor, puede disminuir significativamente el consumo de agua debido a que los microaspersores, los goteros y las tuberías de goteo en línea riegan su jardín más eficazmente.
