Care & Maintenance

EXPOSURE: Over time, sunlight and weather elements will fade and degrade outdoor decor. Additionally, long-term exposure to sun, rain, and high humidity causes wood swelling. Resulting damage includes, but is not limited to, assembly points becoming loose, wood cracking, mold and mildew growth, and hardware rust. Maintenance is required to keep wood decor in tip-top condition.

INSPECT: Periodically check hardware and tighten as necessary.

CLEANING: Follow the woodgrain with a soft brush or cloth to remove dust, dirt and debris. Do not use chemicals or abrasive materials as they will damage the wood and/or finish.

CARE & STORAGE: Maintain the appearance and prevent damage by covering and storing this unit when not in use.

MAINTENANCE: Left untreated, the wood may weather. To maintain the appearance, apply a suitable penetrating wood oil (not included) yearly, or when the wood looks particularly dry.

Clean the unit and bring it into a dry, warm, indoor location. Allow the unit to thoroughly dry before applying oil; drying may take several days. Only apply oil to wooden surfaces. Apply oil as directed by the wood oil manufacturer.

WARNING: THE ONE-YEAR WARRANTY DOES NOT COVER DAMAGES OR DEFECTS CAUSED BY THE APPLICATION OF CHEMICAL TREATMENTS, PROTECTIVE COATINGS, OR CLEANING PRODUCTS.
